This request for comment is being made pursuant to section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, Veteran's Experience invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of VBA's functions, including whether the information will have practical utility; (2) the accuracy of VA's estimate of the burden of the

proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Type of Review: Non-Substantive Change of currently approved collections.

Abstract: For FY16-17, VA set Veterans Experience as an agency priority goal to improve Veterans Experience with VA. Because this is a new measure, VA developed one brand and three experience measures to support the Veterans Experience Agency Priority Goal (APG). VA will add four APG questions to each survey identified below. One question deals with VA brand, and three questions deal with Veterans experience.

"I got the service I needed."

"It was easy to get what I needed."

"I felt like a valued customer."

"I trust VA to fulfill our country's commitment to veterans."

Adding these questions is necessary to establish an enterprise measure of VA's performance as experienced by our Veterans, as is needed to support VA's Veterans Experience FY16-17 APG. VA's goal is to incorporate these four survey questions into VA's existing customer experience by Q1 FY2016. The information collected will be used by VA departmental leadership to track enterprise performance improvements as experienced by our Veterans.

VA expects that it will take approximately one minute for each survey respondent to answer these new questions. As set forth below, this change is expected to affect approximately 132 instruments approved under eleven different OMB control numbers. Together, these instruments are nearly 1.5 million times per year. The cumulative annual burden of this change is more than 24,000 hours ((1 minute per submission * 1,462,937 submissions)/60 minutes per hour = 24,382.28 hours). There is also some annual cost burden associated with this request. Specifically, some of these instruments are administered by third-party contractors, who will need to revise the instruments.

VA has provided a table detailing the full burden information for each information collection located at http://www.oprm.va.gov/ers/ers_reports.aspx.
