5010Web: Airport Summary and Activity Data

Airport Intelligence Software

Please enter your search criteria below (all fields are optional):

Airport Name:

Associated City:

State or Territory:

Location Identifier:

Quick Listing:

Use:

This service provided by **g.c.r. & associates, inc.** For any questions or comments, please contact [5010 Web Support](#)

The Airport data accessible via this site is structured in accordance with the FAA Airport Master Record (FAA Form 5010-1) and is unedited information provided by **g.c.r. & associates, inc.** with data derived from the National Flight Data Center (FAA, 800 Independence Avenue, S. W., Room 634, Washington, D.C. 20591). The date of the data set matches the date of the most recent Airport Facilities Directory (AFD). To access the data for a specific airport, you can enter any known criteria. If known, enter the location identifier. If the location identifier is not known, enter the city and state, the system will give you a list of all airports in that city.

Looking for Activity Reports?

[Get Activity Reports and More!](#)

Check the pulse of your entire operation, in real time, all from one screen.

- Run reports.
- Check operations.
- Get aviation news.
- View air traffic.
