

White Paper Justification  
The Information Collection Is A Revision With No Burden Change  
VA Form 26-6808

The VA Form 26-6808, Loan Service Report has been revised to include the addition of a box in Item 1 of the form for "email" and to add Item 4, "email address" to the form. These additions have been made to provide another option for VA to contact the delinquent obligor. This is a change to the existing form however it has been determined by the VA Loan Guaranty Service that this does not change the burden requirement for this collection of information.
