# Understanding the Status Icons

Status icons indicate the submission status of each section and show where the system has found problems or potential problems with the data you have entered.

The icon colors mimic a traffic light and indicate the submission status of each section and item as follows:  $\frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{2} \left( \frac{1}{2} \right) \left( \frac{1}{2}$ 

The Please Correct icon ( ) indicates that you must correct the record before you submit your data.

The Please Review icon ( ) indicates a record that we would like you to review and complete, if possible, before submitting your data; however, completion is not required before you submit your data.

The OK icon (  $rac{arphi}{}$  ) indicates a record that is ready for submission; i.e., no changes are required prior to submitting your data.

The Please Complete icon ( $\square$ ) indicates a record for which no data have been entered.

# Saving Data and Returning to the Survey

The system is designed to allow you to work on an entry, save your work, leave the system, and return later to continue where you left off. You can continue to return to the system and make any necessary revisions and updates until you send your authorized final submission to NSF by clicking on Send Authorized Final Submission to NSF at the bottom of the Main Menu screen. As noted elsewhere, sending your final submission to NSF will complete your survey submission and lock your data. After final submission, you may return to this site as often as you like to view the read-only version of your data, but you will not be able to alter the data.

Each time you click on the **Save** button, your data are transferred to NSF and stored in a computer system there, not on your hard drive. You can access your data at any time using NovceWeb.

# Leaving a Field Blank

You can intentionally leave a field blank if you think that the field does not apply to your award or that the best answer is to leave it blank. If the answer to the question is zero (0), please enter a "0" rather than leave the field blank. If a Please Review icon ( ) is displayed because a field is blank and if your record has no errors, you will still be able to send your authorized final submission to NSF. This icon appears when we would like you to review preferred fields, but it will not prevent or delay final submission.

If a Please Correct icon (🎱 ) is displayed next to a field that you have left blank, it means that the field is required and must be completed before final submission can occur.

   Reason for the request

## A Noyce Technical Support staff member will respond to your e-mail message.

## For the baseline and current reporting year data on the Post-Secondary Institutions screen, should I just report participants in the Noyce pro

No. For the number of Science, Technology, Engineering, and Mathematics (STEM) professionals (career changers) and STEM post-baccalaureates who completed a master degree program and had prepared to become K-12 mathematics and science teachers, you may report just on those disciplines on which your award is focusing (if those andly data available), but you should include all such majors at your institution and not just those participating in the Noyce program. These data are only applicable to projet in a Teaching fellowship component (pre-service teachers).

## What is the difference between career changers and post-baccalaureates?

Career changers (post-baccalaureates who are moving into teaching in STEM fields from another occupation) represent a subset of all post-baccalaureates.

## What is the main distinction between a Noyce Teaching Fellowship recipient and a Noyce Master Teaching Fellowship recipient?

The main distinction between a Teaching Fellowship recipient and a Master Teaching Fellowship recipient for the purposes of the Noyce survey is that a Teaching Fellowship recipient initially receives funding to complete a master's degree program leading to teacher certification/licensure and does not already hold a teaching certificate/license and has not taught previously while a Master Teaching Fellowship recipient is already a certification and mathematics or science teacher.

## What kind of teaching counts toward meeting the Noyce teaching requirements?

If a support recipient is certified/licensed and has full teaching responsibility (i.e., has full responsibility for a classroom and is not just co-teaching or student teach high-need school district, then this counts toward meeting his or her teaching requirements. If he or she is not certified/licensed and/or does not have full teaching then this does not count toward meeting his or her teaching requirements.

If a support recipient is certified/licensed and is substitute teaching full time in a high-need school district while seeking a full-time regular teaching position, then this count toward meeting his or her teaching requirements. If the recipient is only substitute teaching occasionally (e.g., a few days a week), then this does not count toward meeting or her teaching requirements.

## When should I answer Yes to the questions about leaving the NSF Teaching Fellowship/Master Teaching Fellowship program?

Only answer Yes if the recipient permanently left the program (i.e., dropped out with no intention to return). If the recipient left the program temporarily (e.g., for medical reasons) and intends to return to complete the program, please answer No.

If the answer to these questions is Yes, then you must provide the amount of the NSF Teaching Fellowship/Master Teaching Fellowship funding that the recipient is required to repay, and the amount that the recipient has repaid to date (i.e., the cumulative amount repaid through the end of the current reporting period).
