Privacy & Public Burden Statements

Privacy & Public Burden Statements

Information from this data collection system will be retained by the National Science Foundation (NSF), a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). All individually identifiable information supplied by individuals or institutions to a Federal agency may be used only for the purposes outlined in the system of records notice and may not be disclosed or used in identifiable form for any other purpose, unless otherwise compelled by law. These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form, or data explicitly requested as "for general use," will be made available to anyone outside of NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grants, and in response to Public Law 99-383 and 42 USC 1885c. Date of birth will be maintained in accordance with the requirements of the Privacy Act of 1974.

Submission of the requested information is not mandatory. The annual public burden for this collection of information is estimated to average 5 hours and 30 minutes, including the time for reviewing instructions. Send comments regarding this burden estimate and any other aspect of this collection of information, including suggestions for reducing burden, to: Suzanne Plimpton, Reports Clearance Officer, Systems and Services Branch, Division of Administrative Services, National Science Foundation, Arlington, VA 22230. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this collection is **3145-0136**.

Note: This Web-based application uses "session variables" to allow you to complete the requested information and send it to an NSF server. These session variables require that your browser be set to accept cookies. If you attempt to login to the input portion of this application and you receive a blank page or an incomplete page, it is likely that your browser is not set to accept cookies. The session variables are used only for the duration of the individual session and then only for navigation between pages and the server database. No personally identifiable information is collected or retained by NSF after the session is complete.

Main Menu

Welcome to the National Science Foundation's Scholarships in Science, Technology, Engineering, and Mathematics (S-STEM) Scholarship Reporting Site.

IMPORTANT! -- Student Disability reporting has changed, effective 9/25/2012.

Based on instructions from OMB, Student Disability reporting has changed to allow only these three possible values: Yes, No, and Do Not Wish to Report.

All previously-entered Student Disability data have been migrated to the new values, which you can see in the [Student Demographics](#) section.

In order to use the [Upload Your Data](#) feature, you will need to download a new spreadsheet containing the new Student Disability values.

The S-STEM program solicitation requires each PI to provide data about S-STEM scholars for every semester/quarter in which they received S-STEM support. Information should be provided within 30 days of the beginning of each semester/quarter but no later than two weeks after the end of the semester/quarter.

Please use the links below to provide new or updated data:

1. [Award Details and Program Activities](#)
2. [Student Demographics](#)
3. [Semester/Quarter Details](#)
4. [Follow-Up Questions](#)
5. [Submit Your Data](#)

The table below shows the data-entry status of student data you have entered so far.

- All students automatically carry forward to later semesters until they exit.
- Follow-up questions appear only after students have graduated.

Student Demographics

The table below displays all students entered so far for your award. Please review the list and add new/additional students as needed so that all student scholarship recipients for every term of your active award (including the current semester/quarter) are included. You may sort the table by clicking on any column heading that contains a link. Click on the same column heading again to reverse the sort order. You may also filter the table to display only students who have a particular current status by selecting a status value from the Show dropdown list and clicking on **Filter**. Click on **Edit** next to a student's name to update the student's demographic data. Click on **Add New Student** to add a new student. Click on **Return to Main Menu** to return to the Main Menu screen.

You may also [upload your data](#) using a Microsoft Excel spreadsheet.

You may also [resolve duplicate students](#) who may already exist in the system.

You may also use the [Student Summaries](#) feature to view all data that have been entered for a specific student.

You may also download an [example student release form template](#) (Microsoft Word document).

After entering your student demographic data, please continue to section [3. Semester/Quarter Details](#).

All Semesters/Quarters

The table below displays all semesters/quarters entered so far for your award along with the number of student records that exist for each. Please note that students are carried forward through all semesters/quarters from their starting semester/quarter until they are marked as "Graduated," "Transferred," or "Left Program." You must report every semester/quarter in which one or more students received S-STEM scholarship funding.

You may sort the table by clicking on any column heading that contains a link. Click on the same column heading again to reverse the sort order. Click on **View** next to a semester/quarter to display a summary of all student data for the selected semester/quarter. Click on **Add a New Semester/Quarter** to add a new semester/quarter. Click on **Return to Main Menu** to return to the Main Menu screen.

Please return to the [Student Demographics](#) section as needed to update details that have changed, such as student address, e-mail address, and career goal.

You may also use the [Student Summaries](#) feature to view all data that have been entered for a specific student.

You may also [upload your data](#) using a Microsoft Excel spreadsheet.

Spring 2007 Students

The table below displays all students for the selected semester/quarter. You may sort the table by clicking on any column heading that contains a link. Click on the same column heading again to reverse the sort order. You may also filter the table to display only students who have a particular student status by selecting a status value from the Show dropdown list and clicking on **Filter**. Students are automatically carried forward until they exit the program (i.e., graduate, transfer, leave the program).

If a student listed for the current semester/quarter exited the program during or at the end of a previous semester/quarter, please return to that semester/quarter and update the student's status (e.g., by using the **previous semester** link). This will ensure that only students who are still active in the program are carried forward to the current semester/quarter.

Click on **Edit** next to a student's name to update the semester/quarter details for that student. Click on **Add a New Student** to add a new student. You may view other semesters/quarters (if applicable) by clicking on **previous semester** or **next semester**. Click on **Return to All Semesters/Quarters** to return to the All Semesters/Quarters screen.

You may also use the [Student Summaries](#) feature to view all data that have been entered for a specific student.

You may also [upload your data](#) using a Microsoft Excel spreadsheet.

Offline Version in Excel

This feature allows you to upload **all** your student data, including student demographics, semester/quarter details, and follow-up questions. You can report new data and revise existing data using the Offline Version in Excel.

Do not delete or edit the name of any previously reported students when using this feature. This should be done manually online. If you need any records deleted, please contact S-STEM Technical Support.

To use this feature, please perform the following steps in order:

STEP 1. Download and Save the Offline Version in Excel

Download and save the Offline Version, which contains all the student data you have reported so far.

**Download the S-STEM
Offline Version in Excel**

Be sure to **save** the file and
make note of its location.

Warning: If you enter new data online before you complete Step 2b, then you must repeat Step 1 to ensure that your Offline Version contains your latest data.

STEP 2a. Enter Your Data into the Offline Version in Excel

Enter and save your new and revised data into the Offline Version in Excel by following the instructions found on the first worksheet. Be sure to save your revisions using **Excel 97-2003** format only.

STEP 2b. Upload Your Revised Offline Version in Excel

Click on **Browse** to locate your revised Offline Version in Excel, and then click on **Upload Your Revised Offline Version in Excel**.

**Upload Your Revised
Offline Version in Excel**

STEP 3. Confirm All Revisions

Your data will not be stored in the S-STEM database until you confirm all revisions. All data from your uploaded spreadsheet will be displayed with the revisions highlighted. Please review the data and click on **Confirm and Save All Revisions**.
