LSAMP BD INITIATIVE DESCRIPTION

The LSAMP BD Initiative funds the initial 2 years of graduate study at LSAMP Alliance institutions. This activity will broaden participation through the attraction of underrepresented minority students in science, technology, engineering, and mathematics (STEM) disciplines.

SURVEY PRIVACY

The Federal Government has a continuing commitment to monitor its awards to identify and address any inequities based on gender, race, ethnicity, or disability of the principal investigators (PIs), co-PIs, trainees, or other participants.

Information from this data collection system will be retained by the NSF, a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). All individually identifiable information supplied by individuals or institutions to a Federal agency may be used only for the purposes outlined in the system of records notice and may not be disclosed or used in identifiable form for any other purpose, unless otherwise compelled by law. These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form or data explicitly requested "for general use" will be made available to anyone outside of NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grants, and in response to Public Law 99-383 and 42 USC 1885c. The Social Security number (SSN) will be maintained in accordance with the requirements of the Privacy Act of 1974. Submission of the SSN is voluntary. It is used for survey quality control, program evaluation, and matching with other data sets maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998).

PUBLIC BURDEN

Submission of the requested information is voluntary. Failure to provide full and complete information, however, may reduce the possibility for continuing support through the award/project subject to this survey. Pursuant to 5 CFR 1320.5(b), an agency may not conduct or sponsor, and a person is not required to respond to, an information collection unless it displays a valid Office of Management and Budget (OMB) control number. The OMB control number for this collection is 3145-0226. The annual public reporting burden for this collection of information is estimated to average 50 hours per award, including the time for reviewing instructions. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Suzanne Plimpton, Reports Clearance Officer for OMB Collection 3145-0226 (LSAMP Program), National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230.

Welcome

The Louis Stokes Alliances for Minority Participation Bridge to the Doctorate Initiative annual survey system allows you to prepare and submit your LSAMP Bridge to the Doctorate annual survey data online. You will be reporting data for the **Academic Year: 2013–2014**.

The process is simple. After we collect your contact information, we will ask you to provide information about the following graduate students at your institution:

- » **1. All LSAMP Bridge to the Doctorate (BD) students**
(LSAMP BD students are those students who have received a BD award)

When you have completed the questionnaire for all students, click on **Final Submission** to submit your annual survey data to NSF.

Please note that every year you will complete a survey for each student in each cohort. The survey contents will vary for each student, depending on where he or she is in the program. This survey system contains three forms – baseline, annual, and followup data forms. The Baseline Data Form needs to be completed only once for each student. The Annual Data Form needs to be completed every year for every student that participates in your program (including those for whom you complete a Baseline Data Form). The Follow-Up Data Form needs to be completed only once after a student finishes the program.

2. Student Data

Respondents may submit their final Bridge to the Doctorate student data and peer comparison student data separately. Click on **Final Submit BD Survey** or **Final Submit Peer Survey** in the left navigation menu to access the corresponding submission screen. Follow the onscreen instructions to submit your data.

Students in the 2007-08 cohort

[LSAMP BD Students](#) (3)

Students in the 2005-06 cohort

[LSAMP BD Students](#) (3)

LSAMP BD students:

LSAMP BD students are those students who have received a BD award.

Peer comparison students:

Peer comparison students are those students who are in the same entering cohort as an LSAMP BD student but have not received a BD award; in other words, all students who enter the same program in the same year as the LSAMP BD students are considered peer comparison students.
