Institution Login

Welcome to the National Science Foundation's (NSF) Science, Technology, Engineering, and Mathematics Talent Expansion Program (STEP) online data collection system. This system allows you to easily provide NSF with reliable annual data on your project.

To enter the STEP online data collection system, type your institution ID and password in the boxes below and then select **Login**. (Use the Tab key or mouse to move between boxes.) For help getting started, please consult the online Help & Instructions section, which can be accessed from the Main Menu screen. If you need additional help, please contact STEP Technical Support by [email](#) or call (800) 897-0451.

You will be automatically logged out of the Web system if it is inactive for 1 hour.

Having Trouble Logging In? Please contact STEP Technical Support by [email](#) or call (800) 897-0451.

The system is closed for maintenance every first Sunday between 7 a.m. and 10 a.m. eastern time.

Program Description

STEP seeks to increase the number of students (U.S. citizens and permanent residents) receiving associate's or baccalaureate degrees in established or emerging fields of science, technology, engineering, and mathematics (STEM).

Financial awards are given to academic institutions that offer either associate's or baccalaureate degrees in STEM disciplines/fields. Award projects may involve a single institution, collaboration with business and/or industrial partners, or collaboration among several institutions.

All awards receiving STEP funding are required to report the results of the project to NSF.

Survey Privacy

The Federal Government has a continuing commitment to monitor its awards to identify and address any inequities based on gender, race, ethnicity, or disability of the principal investigators (PIs), co-PIs, trainees, or other participants.

Information from this data collection system will be retained by the NSF, a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). All individually identifiable information supplied by individuals or institutions to a Federal agency may be used only for the purposes outlined in the system of records notice and may not be disclosed or used in identifiable form for any other purpose, unless otherwise compelled by law. These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form or data explicitly requested "for general use" will be made available to anyone outside of NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grants, and in response to Public Law 99-383 and 42 USC 1885c.

Public Burden

Submission of the requested information is voluntary. Failure to provide full and complete information, however, may reduce the possibility for continuing support through the award/project subject to this survey. Pursuant to 5 CFR 1320.5(b), an agency may not conduct or sponsor, and a person is not required to respond to, an information collection unless it displays a valid Office of Management and Budget (OMB) control number. The OMB control number for this collection is 3145-0226. The public reporting burden for this collection of information is estimated to average 25 hours per institution, including the time for reviewing instructions. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Suzanne Plimpton, Reports Clearance Officer for OMB Collection 3145-0226 (STEP Program), National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230.

3. Student Demographics

Please provide data about student demographics (race, ethnicity, and gender) for each of the STEM disciplines offered at QRC Test Inst 11 (plus non-STEM disciplines combined and undeclared). **(Include U.S. citizens and permanent residents only.)**

First, please tell us which STEM disciplines are offered at your institution.

3.1. **STEM Disciplines Offered at QRC Test Inst 11**

Computer Science
Physics/Astronomy

Then, please provide demographic data for the following categories:

3.2. **Majors**

3.3. **Degrees Granted**

Notes

Notes entered throughout the Student Demographics section of the survey are for majors **and** degrees granted. Each category shares the same notes. Overwriting notes will overwrite notes for **all** categories in Student Demographics.

7. Student Participation

Complete the following questions for the reporting period July 1, 2012 - June 30, 2013.

7.1. Since some of your strategies/activities will service the same students multiple times, please estimate

- a. How many *distinct* undergraduate students **participated** in the strategies/activities carried out under your STEP grant between July 1, 2012 - June 30, 2013, as described in section 4? This should be the unduplicated cumulative total from all strategies/activities reported in section 4. No quality distinctions should be made between the student counts reported in section 4 and those reported in section 7. The same criteria should be applied for both sections in determining the number of students actively participating.

- b. How many *distinct* high school students **participated** in the strategies/activities carried out under your STEP grant between July 1, 2012 - June 30, 2013, as described in section 4? This should be the unduplicated cumulative total from all strategies/activities reported in section 4. No quality distinctions should be made between the student counts reported in section 4 and those reported in section 7. The same criteria should be applied for both sections in determining the number of students actively participating.

7.2. How many distinct undergraduate students received direct funding under your STEP grant between July 1, 2012 - June 30, 2013? This would include being paid to be a tutor, mentor, or intern; receiving a scholarship or stipend; and being paid to assist with STEP strategies/activities.

7.3. For what types of efforts were undergraduate students funded between July 1, 2012 - June 30, 2013?

- Payment for tutoring
- Payment for mentoring
- Paid internships/research experiences
- Scholarships/stipends
- Payment for assisting with STEP strategies/activities
- Other (please specify):
