Released September 4, 2015, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

Asparagus Production Down 8 Percent from 2014
Strawberry Production Up 4 Percent from 2014
Onion Production Down 5 Percent from 2014
Contracted Processing Production Up 4 Percent from 2014

Production of the 2015 asparagus crop is forecast at 685,000 cwt, down 8 percent from 2014. Area harvested, at 23,500 acres, is down 1 percent from last year.

Strawberry production in the United States is forecast at 31.1 million cwt, up 4 percent from 2014. Area harvested, at 52,800 acres, is down 2 percent from last year. Strawberry yield is forecast at 588 cwt per acre, up 37 cwt from 2014.

Production of the 2015 onion crop is forecast at 69.1 million cwt, down 5 percent from 2014. Onion growers expect to harvest 133,350 acres in 2015, down 4 percent from last year. Spring onion growers intend to harvest 21,900 acres, down 18 percent from last season. Summer, non-storage onion growers expect to harvest 18,800 acres, down 2 percent from a year ago. Summer storage onion growers plan to harvest 92,650 acres in 2015, down 1 percent from last season.

The 2015 contracted processing vegetable production for the four major processing crops (snap beans, sweet corn, green peas, and tomatoes) is forecast at 18.9 million tons, up 4 percent from last year. Production of processing tomatoes, at 14.9 million tons, is up 2 percent from last year. Snap bean production, at 728,360 tons, is up 10 percent from last year's production. Sweet corn production, at 2.86 million tons, is up 15 percent from last year. Green pea production, at 361,230 tons, is up less than 1 percent from the previous year. Contracted area for harvest of the four major processing vegetable crops, at 970,270 acres, is 3 percent above 2014.

Asparagus Comments

Asparagus: Production from the 2015 asparagus crop is forecast at 685,000 cwt, down 8 percent from last year. Harvested area, at 23,500 acres, is down 1 percent from 2014. Total value of the crop, at 75.7 million dollars, is up 3 percent from 2014. Fresh production of 530,000 cwt is down 7 percent from a year ago. Processed production, at 7,750 tons, is down 11 percent from 2014. Asparagus for canning, at 2,200 tons, is up 10 percent from last year. Frozen asparagus production of 5,550 tons is down 18 percent from 2014.

In California, drought conditions and lack of rain during the winter forced producers to start irrigation in March. The harvest of the asparagus crop began in late February and was complete in most areas of the State by early June. In Washington, asparagus acres continue a decade long trend of declining acres.

¹ Includes a small amount of processing asparagus.

² Other States include Michigan and Washington.

Strawberry Comments

Strawberries: Strawberry production in the United States is forecast at 31.1 million cwt, up 4 percent from 2014. Area harvested, at 52,800 acres, is down 2 percent from last year. In California, warm weather led to an earlier harvest. While the drought has impacted plant growth, production and quality were reported to be good.

Strawberry Area Harvested, Yield, and Production – States and United States: 2013, 2014, and Forecasted 2015

Onion Comments

Spring onions: Production of spring onions in 2015 is forecast at 6.50 million cwt, down 18 percent from last year. The crop covered 21,900 harvested acres. The average yield, at 297 cwt per acre, is 2 cwt above 2014. In Texas, the 2015 season was very challenging due to cold temperatures and heavy rainfall experienced in the late spring and early summer.

Summer, non-storage onions: Production of non-storage onions is forecast at 10.7 million cwt, up 15 percent from last year. Harvested area covers 18,800 acres, down 2 percent from the previous year. In New Mexico, growing conditions for non-storage onions were reported to be good.

Summer, storage onions: Growers expect to harvest 92,650 acres of storage onions this year, down 1 percent from last year. Despite issues with lack of water available for irrigation, California growers reported the crop to be in good condition throughout the season. Washington growers reported a very good growing season.

2014 Storage onions, revised: The final tally of 2014 storage onion production is 55.7 million cwt, up 10 percent from 2013. The 2014 storage crop is valued at \$566 million, an increase of 2 percent from 2013. Average price per cwt decreased from \$12.10 in 2013 to \$11.00 in 2014. With spring and non-storage summer onions added in, total value of the 2014 harvested onions is \$934 million, down 4 percent from 2013.

Processing Crop Comments

Snap beans: Contracted production of snap beans is forecast at 728,360 tons, up 10 percent from last year. Contracted harvested area is up 8 percent and yield is up 0.16 ton per acre from last year. In Pennsylvania, adequate and timely rainfall throughout the growing season coupled with moderate temperatures led to higher yields than last season.

Sweet corn: Contracted sweet corn production is forecast at 2.86 million tons, up 15 percent from last year. An increase of 10 percent in contracted harvested area is expected along with an increase in yield of 0.34 ton per acre from 2014. In Washington, weather conditions have been good for vegetable crops. In Minnesota, excellent yields were reported.

Green peas: Contracted production is forecast at 361,230 tons, up less than 1 percent from last year. Area for harvest, at 164,900 acres, is down 11 percent from 2014. The expected yield, at 2.19 tons per acre, is up 0.26 ton per acre from a year ago. Area contracted for planting, at 176,300 acres, is down 9 percent from 2014. Area contracted for canning, at 80,600 acres, is up 2 percent from last year. Area contracted for freezing, at 95,700 acres, is down 16 percent from 2014.

Tomatoes: Contracted tomato production is forecast at 14.9 million tons, up 2 percent from last year. Contracted harvested area is up 2 percent and yield is up 0.64 ton per acre from last year. In California, growers reported that the crop looks very good overall.

Statistical Methodology

Survey procedures: Grower and processor surveys are conducted in preparation for this report. Telephone follow-up of mail survey non-respondents is used to ensure adequate coverage. Other data are obtained via fax or personal interview.

Estimating procedures: Information obtained from the vegetable surveys along with administrative data is used to establish forecasts of area and production. These forecasts are reviewed for errors, reasonableness, and consistency with historical estimates.

Revision policy: Vegetable forecasts will not be revised. End-of-season estimates are made following harvest and are subject to revision the following year based on a thorough review of all available data.

Reliability: Survey indications are subject to sampling variability because all operations growing vegetables are not included in the sample. Survey results are also subject to non-sampling errors such as omission, duplication, imputation for missing data, and mistakes in reporting, recording, and processing the data. These errors cannot be measured directly, but are minimized through rigid quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Information Contacts

Listed below are the commodity statisticians in the Crops Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to nass@nass.usda.gov

Lance Honig, Chief, Crops Branch	(202) 720-2127
Jorge Garcia-Pratts, Head, Fruits, Vegetables and Special Crops Section.....	(202) 720-2127
Vincent Davis – Fresh and Processing Vegetables, Onions, Strawberries, Cherries	(202) 720-2157
Fleming Gibson – Citrus, Coffee, Grapes, Sugar Crops, Tropical Fruits	(202) 720-5412
Greg Lemmons – Berries, Cranberries, Potatoes, Sweet Potatoes	(202) 720-4285
Dave Losh – Hops	(360) 709-2400
Dan Norris – Austrian Winter Peas, Dry Edible Peas, Lentils, Mint, Mushrooms, Peaches, Pears, Wrinkled Seed Peas, Dry Beans	(202) 720-3250
Daphne Schaubert – Floriculture, Maple Syrup, Nursery, Tree Nuts	(202) 720-4215
Chris Singh – Apples, Apricots, Plums, Prunes, Tobacco	(202) 720-4288

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: <http://www.nass.usda.gov>
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit <http://www.nass.usda.gov> and in the “Follow NASS” box under “Receive reports by Email,” click on “National” or “State” to select the reports you would like to receive.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

USDA NASS Data Users' Meeting
Wednesday, October 28, 2015

University of Chicago – Gleacher Center
450 North Cityfront Plaza Drive
Chicago, Illinois 60611
312-464-8787

The USDA's National Agricultural Statistics Service will be organizing an open forum for data users. The purpose will be to provide updates on pending changes in the various statistical and information programs and seek comments and input from data users. Other USDA agencies to be represented will include the Agricultural Marketing Service, the Economic Research Service, the Foreign Agricultural Service, and the World Agricultural Outlook Board. The Foreign Trade Division from the Census Bureau will also be included in the meeting.

For registration details or additional information for the Data Users' Meeting, see the NASS homepage at <http://www.nass.usda.gov/meeting/> or contact Tina Hall (NASS) at 202-720-3896 or at tina.hall@nass.usda.gov.

This Data Users' Meeting precedes the Industry Outlook Conference that will be held at the same location on Thursday, October 29, 2015. The outlook meeting brings together analysts from various commodity sectors to discuss the outlook situation. For registration details or additional information for the Industry Outlook Conference, see the conference webpage on the LMIC website: <http://lmic.info/page/meetings>. For more information, contact James Robb at (303) 716-9933.
