9. Were there any problems with the procurement of commodities?
10. Were there any problems with the distribution of commodities, cash or food vouchers?
11. Were there any problems with the inland transportation and delivery of commodities to the distribution location?
12. Provide an explanation for any commodity losses/damages, and any problems encountered in the commodity delivery process. Explain each loss separately. (Specify when, where, and why.)
13. List any claims on lost or defective goods. What is current status of these claims?
14. If ocean transportation was used, was the port able to adequately handle the commodity offloading; did the port authorities and customs authorities handle the commodity clearance process efficiently? Was the surveyor present? Was he cooperative? Note name and firm of surveyor.
15. Were taxes levied on the imported commodities? If so, was it at a level such that program implementation was jeopardized?
16. Were any measures taken to cut down on warehouse expenses, i.e. sharing space with other commodities, other PVOs, etc.? Were there any security measures that worked well or not well (warehousing)?
17. Please provide information on measures taken to assure the quality and safety. Please provide the name of the professional commodity inspection service that was hired to survey and report on the quality of commodities purchased. Please provide additional information about steps taken to test for mycotoxins and moisture content at the time of inspection.

18. Please provide information on any processing, packaging or repackaging of the commodities.

19. Was the commodity appropriate for the country/region? If not, could another commodity and/or package type, have been used that would have improved the program?

**FUNDS DISTRIBUTION AND REGULATIONS**
