

National Survey of Children's Health

A study by the U.S. Department of Health and Human Services to better understand the health issues faced by children in the United States today.

The U.S. Census Bureau is conducting the National Survey of Children's Health on behalf of the U.S. Department of Health and Human Services (HHS) under Title 13, United States Code, Section 8(b), which allows the Census Bureau to conduct surveys on behalf of other agencies. Title 42 U.S.C. Section 701(a)(2) allows HHS to collect information for the purpose of understanding the health and well-being of children in the United States. The data collected under this agreement are confidential under 13 U.S.C. Section 9. All access to Title 13 data from this survey is restricted to Census Bureau employees and those holding Census Bureau Special Sworn Status pursuant to 13 U.S.C. Section 23(c).

Any information you provide will be shared among a limited number of Census Bureau and HHS staff only for work-related purposes identified above and as permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a).

Participation in this survey is voluntary and there are no penalties for refusing to answer questions. However, your cooperation in obtaining this much needed information is extremely important in order to ensure complete and accurate results.

Start Here	A3		ow well do each of the follow	ving phras	es describ	е
Recently, you completed a survey that asked about the children usually living or staying at this address. Thank you for taking the time to complete that survey.			This child shows interest and curiosity in learning new things	Definitely true	Somewhat true	Not true
We now have some follow-up questions to ask about:		b.	This child works to finish tasks he or she starts			
		C.	This child stays calm and in control when faced with a challenge			
These questions will collect more detailed information on various aspects of this child's health including his or her health status, visits to health care providers,		d.	This child cares about doing well in school			
health care costs, and health insurance coverage.		e.	This child does all required homework			
We have selected only one child per household in an effort to minimize the amount of time necessary to complete the follow-up questions.		f.	This child is bullied, picked on, or excluded by other children			
The survey should be completed by an adult who is familiar with this child's health and health care. Your participation is important. Thank you.		g.	This child bullies others, picks on them, or excludes them			
		h.	This child argues too much
