Download the tLandings (Training) environment before starting any of the training scenarios:

Login: <https://elandings.atlassian.net/wiki/download/attachments/50069518/pti-4.80-10641-installer.zip?version=1&modificationDate=1403547075183&api=v2>

Instructions on installation of the Training PTI environment: [Installing PTI Installer on Windows 7 Machines.docx](#)

UserID is sfish

Password is sockeye1

Please give Gail Smith a call if you have any problems with installation: (907) 465-6157 or email at gail.smith@alaska.gov

PLEASE NOTE:

- **PTI = Processor Tender Interface** – The application used to load the tLandings application, unique fish ticket numbers and unique processor/tender specific information, including the catcher vessel list. This application is also used to upload the landing report (fish ticket) information to eLandings.
- **TWS = Tender Workstation** – The tLandings application loaded onto the thumb drives and used by tenders to record individual landings.

For training scenarios, please use these:

User login accounts and CFEC permits

- [**PTI one page laminated guide sheet \(.pdf\)**](#)
- [**tLandings-How to complete a Landing Report one page laminated guide sheet \(.pdf\)**](#)

Scenarios:

PTI - Processor Tender Interface

- **1: [Configure thumb drive for tender using simple defaults](#)**
- **2: [Configure thumb drive for tender using edited defaults](#)**
- **3: [Import landing reports from thumb drive into eLandings](#)**
- **4: [Bristol Bay Only - Import Mixed Salmon, apply Chum Percents](#)**
- **5: [Bristol Bay Only - Export Landing Reports for Catch Manager I Data Entry](#)**

TWS - tLandings (Tender Worktstation)

- **1: [Create a Landing Report using the CFEC mag card](#)**
- **2: [Create a Landing Report with Manual Entries](#)**
- **3: [Create a Landing Report with Personal Use](#)**
