SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision and extension of a current information collection.

The Coastal Zone Management Act of 1972, as amended (CZMA; 16 U.S.C. 1451 *et seq.*) requires that state coastal management programs and national estuarine research reserves developed pursuant to the CZMA and approved by the Secretary of Commerce be evaluated periodically. This request is for to collect information to accomplish those evaluations.

Section 1458 of the CZMA and implementing regulations at 15 CFR 923, Subpart L, require that state coastal management programs be evaluated concerning the extent to which the state has implemented and enforced the program approved by the Secretary, addressed the coastal management needs identified in 16 U.S.C. 1452(2)(A) through (K), and adhered to the terms of any grant, loan, or cooperative agreement funded under the CZMA. Section 1461(f) of the CZMA and implementing regulations at 15 CFR 921, Subpart E, require that national estuarine research reserves be evaluated with regard to their operation and management, including education and interpretive activities, the research being conducted within the reserve, and be evaluated in accordance with section 1458 of the CZMA and procedures set forth in 15 CFR 923.

NOAA's Office of Ocean and Coastal Resource Management (OCRM) conducts periodic evaluations of the 34 coastal management programs and 28 research reserves and produces written findings for each evaluation. OCRM has access to documents submitted in cooperative agreement applications, performance reports, and certain documentation required by the CZMA and implementing regulations. However, additional information from each coastal management program and research reserve, as well as information from the program and reserve partners and stakeholders with whom each works, is necessary to evaluate against statutory and regulatory requirements. Different information collection subsets are necessary for (1) coastal management programs, (2) their partners and stakeholders, (3) research reserves, and (4) their partners and stakeholders.

II. Method of Collection

Coastal program and reserve manager respondents will receive information requests/questionnaires via email, and submittals will be made via email. Partners and stakeholders of coastal management programs and of reserves

will receive a link to a web-based survey tool and respond through the survey tool.

As part of this submission, a few questions will be modified to clarify the information that should be provided as part of the information requests/questionnaires sent to the coastal program and reserve managers. The overall number of survey questions for the partners and stakeholders will be reduced.

III. Data

Form Number: None.

Type of Review: Regular (revision and extension of a current information collection).

Affected Public: State, local, or tribal government; not-for-profit institutions; business or other for-profit organizations.

Estimated Time Per Response: 55 hours per CZMA program manager's evaluation; 30 minutes per partner/stakeholder's evaluation.

Estimated Total Annual Burden Hours: 943 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
