Q1

Form Approved
 OMB No. 0920-XXXX
 Exp. Date XX/XX/20XX

Thank you for completing the training on fetal alcohol spectrum disorders (FASD) about 6 months ago. We would like to invite you to complete this final evaluation survey. We appreciate your willingness to help us evaluate the effectiveness of the training and its impact on your practice as you address the prevention, identification, and treatment of FASD.

This survey will take approximately 5 minutes to complete. Your responses will be kept secure and no individually identifiable information will be included. Risks to participating in this survey are minimal and include the risk of your information becoming known to individuals outside the AAP.

Your participation is voluntary. You may decline to answer any questions and you have the right to stop the survey at any time.

Please submit questions to the project partners at PEHDIC@aap.org.

CDC estimates the average public reporting burden for this collection of information as 5 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN PRA (0920-XXXX).

Questions Saved (Q13/QID20/QID20)

Which of the following are the primary facial dysmorphic features associated with fetal alcohol syndrome?

- Wide inner canthal distance
- Short palpebral fissures
- Full lips
- Smooth philtrum
- Thin upper lip
- Flaring nares
- Don't know/unsure

Page Break

Q6

The diagnosis of "neurobehavioral disorder associated with prenatal alcohol exposure" (ND-PAE) as identified in the Diagnostic and Statistical Manual of Mental Disorders Fifth Edition (DSM-5):

- a. Requires recognition of neurocognitive impairment, self-regulation impairment, and deficits in adaptive functioning
- b. Can be diagnosed without knowledge of confirmed prenatal alcohol exposure
- c. Includes recognition of the 3 primary morphologic features of prenatal alcohol exposure
- d. Is the least common manifestation of prenatal alcohol exposure
- e. All of the above

Page Break

Q7

Which of the following could indicate that a child may have been exposed to alcohol prenatally?

- Growth deficiencies
- Clinically significant abnormalities in neuroimaging and/or a history of seizures
- Cognitive/developmental deficiencies or discrepancies
- Executive function deficits
- Delays in gross/fine motor function
- Problems with self-regulation/self-soothing
- Delayed adaptive skills
- Confirmed history of alcohol exposure in utero
- Don't know/unsure

Page Break

Q8

Which of the following approaches/care strategies is **not** applicable for children diagnosed with an FASD?

- Regularly scheduled follow-up in the medical home to anticipate/address needs across the lifespan.
- Refer child's case to therapist to provide all follow-up and lifelong monitoring because traditional behavioral therapies work best for children with an FASD.
- Evaluation by a psychologist to assess neurocognitive functioning, self-regulation, and adaptive functioning skills.
- Medication management for co-occurring conditions as needed to optimize care.
- All of the above are applicable approaches/care strategies for children with an FASD.

Q10

In your opinion, how much alcohol is safe to drink during pregnancy?

Page Break

Q11

Please check which of the following two statements below best corresponds with your personal viewpoint. Please mark only ONE.

- Occasional consumption of one standard alcoholic drink per day or less (i.e., 1.5 oz. hard liquor, 12 oz. of beer or 5 oz. of wine) during pregnancy is not harmful to the mother or the fetus
- Pregnant women or women who are trying to become pregnant should completely abstain from consuming alcohol.

Q12

To what extent do you agree with the following statements about alcohol consumption during pregnancy? (Mark one response per line)

Alcohol consumption during pregnancy...

	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree
a. Is more prevalent in women with lower incomes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Is more prevalent in women with higher incomes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Does not vary between income levels	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Is more prevalent in women with lower levels of education	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Is more prevalent in women with higher levels of education	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Does not vary between education levels	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Is more prevalent in African-American women	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Is more prevalent in American Indian women	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Is more prevalent in Anglo-white women	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j. Is more prevalent in Asian-American women	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
k. Is more prevalent in Hispanic/Latina-American women	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
l. Does not vary between ethnic or racial groups	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q15

How confident are you in your skills to do the following? (Mark one response per line)

	Not at all Confident in my Skills	A Little Confident in my Skills	Moderately Confident in my Skills	Confident in my Skills	Completely Confident in my Skills
a. Inquire about potential prenatal alcohol exposure for pediatric patient	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Identify persons with possible FAS or other prenatal alcohol-related disorders	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Diagnose persons with possible FAS or other prenatal alcohol-related disorders	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Utilize resources to refer patients for diagnosis and/or treatment for FAS(D)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Manage/coordinate the treatment of persons with FASDs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Page Break

Q16

How willing are you to do the following? (Mark one response per line)

	Not at all Willing	A Little Willing	Moderately Willing	Willing	Completely Willing
a. Inquire about potential prenatal alcohol exposure for pediatric patient	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Identify persons with possible FAS or other prenatal alcohol-related	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Diagnose persons with possible FAS or other prenatal alcohol-related disorders	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Utilize resources to refer patients for diagnosis and/or treatment for FAS(D)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Manage/coordinate the treatment of persons with FASDs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Q17

Is stigma a barrier as you consider assessing for prenatal alcohol exposure in your clinical practice?

- Yes
- No

Page Break

Question 18 (Q13/QID20/QID20)

During the past six months, did you diagnose any children with fetal alcohol syndrome or one of the fetal alcohol spectrum disorders (FASDs)?

- Yes
 No

Q19

If yes, which diagnostic schema (if any) did you use to support your diagnosis:

- Institute of Medicine criteria
 American Academy of Pediatrics algorithm and/or toolkit
 Digit Diagnostic Code (University of Washington)
 Diagnostic and Statistical Manual of Mental Disorders (DSM-5)
 Other schema (please specify)

- I did not use any particular schema

-----Page Break-----

Q20

During the past six months, did you refer any children for FASD assessment?

- Yes
 No

-----Page Break-----

Q21

As a result of participating in the FASD learning activity 6 months ago, did you make a change in your practice?

- Yes
 No

Q22

If yes, describe what change you made:

-----Page Break-----

Q23

Did you encounter any barriers to making a change in your practice?

- Yes
 No

Q24

If YES, please describe:
