Form Approved OMB No. 0920-New Expiration Date: XX/XX/XXXX

Cooperative Re-Engagement Controlled Trial (CoRECT)

Attachment #13c Start-up Cost Analysis CLINICS

Public reporting burden of this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

## Appendix 13c: Start-up Costs for CoRECT CLINIC COSTS

Rev: 01/18/2015

Site name:	Completed Date:
Data collection period (MM/DD/2016 MM/DD/2018)	

The attached cost analysis worksheets are designed to determine how much it costs to implement the intervention that reengages those who are determined out of care respectively - the worksheets will:

- Systematically list the resources needed to implement the CoRECT Study
- Itemize the amount (quantity) of each of the resources used
- Assign dollar values to the resources

The worksheets contain fields for several cost categories listed below. The data will be used to determine the total start-up program costs.

- 1. Pre-implementation training
- 2. Out-of-care list generation
- 3. Administration time
- 4. Re-engagement/handoff to clinic
- 5. Staff salaries

Clinical sites may update (insert rows) and clarify cost categories and the items listed under each of the cost categories, based on the retention in care project activities performed at that specific site. The data should reflect actual cost or resources allocated under this project, however, some of the data elements may require estimation of costs or resources used based on available information. In such cases, sites may use appropriate data sources or separate calculation to complete the forms.

Evaluation costs that are strictly research-related (e.g., ACASI software, incentives for completing ACASI) should NOT be included in this exercise. However, all resources that are used for project implementation purposes should be included, even if those go beyond specific project funds.

<u>(1)Pre-</u>	Description	Training period	Time spent	Per diem (\$)
implementation/		(days)		
<b>Training</b>		mmdd/mmdd		
CoRECT study clinic	Train clinic staff to			
manager/nurses	generate initial lists of		hr/day	
	OOC patients			
Data manager	Time spent training			
	data management		hr/day	
	transmit data to health			
	department			
Other:			hr/day	
Other:			hr/day	
Ouler.				

(2) Out-of-care lists	Description	<b>Responsible staff</b> (ex. clinic nurse, data manager) <sup>ac</sup>	Frequency Count/Week, Month <sup>bc</sup>	Total Time Spent (hr) <sup>b</sup>
Generate surveillance line list	Create initial OOC list using surveillance data		// /	
Match with HD list	Time spent reconciling health department and clinic OOC list			
Communicate with HD-data transmission (initial)	Transmit reconciled OOC list back to clinic prior to case conference			
Case Conference	Time HD staff spent participating in case- conference to complete OOC list		/ /	

a List multiple staff if applicable; labor cost could be calculated based on median wage or directly from the activity log data.

b Data in this column reflect the aggregate over the data collection period, e.g., week or month

line (staff and hours) for any staff involved in this item

(3) Administration Time	Responsible staff	Frequency	Total Time Spent
	(ex. clinic nurse, physicians, data manager) <sup>ac</sup>	Count/Week, Month	(hr) <sup>b</sup>

 ${\bf c}$  Fill out a separate

Project-related meetings	 //	
	 /	
Data management	 //	
	 /	
Quality assurance checks	 //	
	  /  /	
General administrative	 //	
duties	 //	
Project supervision	 //	
	  /  /	
Other (specify):	 //	
	 //	
Other (specify):		
	  /	
1		1

a List multiple staff if applicable; labor cost could be calculated based on median wage or directly from the activity log data;

 ${\bf b}$  Data in this column reflect the aggregate over the data collection period, e.g., week or month.;

 ${\bf c}$  Fill out a separate line (staff and hours) for any staff involved in this item

(4) Re-engagement/	Description	Responsible	Frequency	Total Time
<u>handoff to clinic</u>		<b>staff</b> (ex. clinic	Count/Week, Month <sup>bc</sup>	Spent (hr) <sup>b</sup>
		nurse,data		
		manager) <sup>ac</sup>		
Staff time spent	Appointment reminders,		/	
contacting OOC	missed visit contacts,		/	
patients	support service contacts		/	
Follow-up with health	Time spent		/	
department	communicating with		/	
	DIS/field epi to schedule		/	
	re-engaged patients for			

medical or phleboto	my	
visits		

a List multiple staff if applicable; labor cost could be calculated based on median wage or directly from the activity log data.

b Data in this column reflect the aggregate over the data collection period, e.g., week or month

c Fill out a separate

line (staff and hours) for any staff involved in this item

(5) Clinic program staff salary			
Clinics Staff	Annual salary (exclude fringe)	Fringe benefit (%)	% time spent in this project
Clinic Physician	\$	%	%
Clinic data manager	\$	%	%
Clinical nurse coordinator	\$	%	%
	\$	%	%
Others (specify)	\$	%	%
Others (specify	\$	%	%
Others (specify)	\$	%	%
