#### A. Purpose of the DCH Performance Monitoring Database (DPMD)

The DCH Performance Monitoring Database (DPMD) was developed by ICF to complement the Policy, Environmental, Programmatic, and Infrastructure Database (PEPID). It works in parallel with PEPID to assist PICH, REACH and National Organization awardees with developing their Community Action Plan (CAP), and it will allow them to track progress, process measures, outcome measures, and estimate the impact of their efforts to meet the requirements of the FOA.

#### B. Obtaining and Installing the DPMD

The DPMD will be sent as an email attachment (3 Microsoft Access files) from DCHPMinfo@icfi.com to the contact person for each awardee. Please install the DPMD on only one computer.<sup>1</sup> After receiving the email, please complete the following steps:

- 1. Before downloading the files, create a new folder in your My Documents Folder entitled, DCH PM Database:
- 2. Download all three files and save them to the DCH PM Database Folder in My Documents. All three files must be saved in the same folder in order for the database to function correctly.

Multiple users may access the DPMD, however, only one user may access the database at a time. If multiple users access the DPMD at the same time, the database may become corrupt and a loss of data could occur.

To open the DPMD, double click on the Microsoft Access file that you have saved in the DCH PM Database Folder entitled PEP\_AI.

#### C. Logging into the DPMD

After double clicking on the PEP\_AI file in the DCH PM Database Folder, the DPMD will open to the login screen.

The first time the DPMD is opened, users will have to "Enable the Content" as seen in figure 1 below.

- 1. Click the "X" that appears in the DPMD login screen
- 2. Click on "Enable Content"

After you complete steps "1" and "2" you will be taken to the DPMD Log-in screen. If you are a new user, enter your email address and click "Add New User" as seen in Figure 2. After the initial log-in process, each time you open the DPMD, you will enter the same Email address and select "GO" to enter the DPMD. If you click Cancel, you will close the DPMD.

<sup>&</sup>lt;sup>1</sup> One computer per FOA. If your Organization is a PICH and REACH awardee, you will receive a database for each FOA.

The first time a user logs in to the DPMD, they will have to select the appropriate FOA and awardee information. To do so you will need to conduct the following steps:

- 1. Select your Funding Opportunity Announcement (FOA).
- 2. Select your organization in the awardee name menu.

3. Click the "Set Awardee" button to go to the DPMD Home Screen.

Please note that you will only have to complete the Awardee selection the first time someone logs into the DPMD. Your FOA information will already be set the next time a user logs into the DPMD and the user will be taken directly to the DPMD Home Screen.

#### D. DPMD Home Screen

The DPMD Home Screen contains the following menu options: Program Overview, Resources, Community Action Plan (CAP), Progress, Budget, Supporting Documents, Reports, and Sub-Recipients<sup>2</sup>. When selected, each menu option will take you to a different area of the DPMD. If your organization is both a PICH and REACH awardee, you will have to choose the correct FOA from the drop down menu prior to accessing any of the menu screens. Figure 4 shows an example of the DPMD Home page for a PICH awardee.

#### Personnel Tab

The Personnel tab (see figure 9 below) is used to maintain information for key personnel members who perform essential program functions. Program personnel includes full time, part time, or contracted individuals, either funded by the cooperative agreement or in-kind. Any number of staff members can be entered and maintained on this page.

To add Personnel information:

- 1. Type in the personnel information into the fields;
- 2. Click "add".

Once you click "add" the information you entered will be populated in the dropdown/sort list at the bottom of the tab. To edit information that has already been added to the sort list, click on the line in the sort list that you wish to edit. You may edit directly in the sort list or in the fields above. Clicking on the Back button will return you to the Resources Section.

Please note, if you check that a position should be included as a budget item, a new field will appear that will ask you to enter the Position name. This Position will then appear as a line item in the budget screen. (For more details, please see the Budget section.

#### 3. Community Action Plan (Cap) Section

The Community Action Plan (CAP) section of the DPMD is where you will enter and edit information in your CAPs. It will contain information about your Project Period Objectives (PPOs), Annual Objectives (AOs) and Activities for each year of the award. PICH and REACH awardees that entered their Year One CAPs in the Excel CAP template and returned it to their Project Officer by the date indicated will have some or all of their Year One CAP pre-loaded into the DPMD. If your CAP is already in the DPMD, you should review the entries to ensure that they are correct and complete. You may need to edit or enter additional information. Once you have entered/confirmed the information contained in this section, you will be able to create a report that displays your complete Year One CAP.

#### Navigating the CAP Section

To access the Community Action Plan section of the DPMD, click on the Community Action Plan button on the DPMD Home Page.

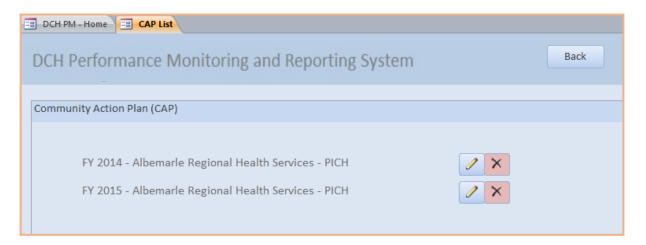

#### Figure 12: DPMD Home Page

Once you click on the Community Action Plan button, you will arrive to the Community Action Plan (CAP) menu screen. This screen will list your CAPs by Fiscal year, followed by the Awardee name and FOA. You are able to

clear ALL of the data in your CAP by clicking on the X icon to the right of the Pencil Icon but you will lose all data that has been entered into your CAP, including data that was pre-loaded from your CAP template. You are also able to delete individual AOs and Activities once you enter the CAP Screen.

Access your CAP by clicking on the appropriate Pencil Icon.

The Overview tab will provide an overview of the PPOs and AOs that have been added to your CAP. In the example above, no data has been added to the CAP, so this tab is blank. Tabs for all of the PPOs associated with the FOA follow the Overview tab. Your CAP may not contain AOs under every PPO, but every PPO tab will be displayed. The example above is for a PICH awardee; REACH awardees will have the same Tabs. National Organization awardees will have a different display – see table 1 below for the PPOs associated with each FOA.

#### Entering and Confirming PPOs, AOs, and Activities in your CAP: Step by Step

The following steps describe how to enter and confirm PPOs, AOs, and Activities into your CAP for each FOA. If you utilized the CAP template for your Year One CAP (PICH and REACH awardees), some fields may already be pre-populated. If you used the CAP Template, please follow the steps to confirm that each field is correct and make edits if necessary. Definitions of terms that are in **bold** text can be found in Appendix A and are organized by screen/tab. Specific examples of entering PPOs, AOs, and Activities can be found in Appendices B-F.

#### **PICH Awardees**

The following steps demonstrate how to add or review PPOs, Annual Objectives (non-media and Media) and Activities for PICH awardees.

#### Steps to add/review Project Period Objectives (PPOs) 1-4: PICH Awardees

- 1. In the CAP Details screen, click on the tab of the **PPO** you wish to add/review. This will open the PPO Tab.
- Enter/Confirm the baseline number for the PPO and enter/confirm the target reach, or the estimated number of people to benefit from the PPO by the end of the project period. Note: for PPO 5, you must also enter the PPO Media Topic (not shown)<sup>3</sup>.
- 3. Enter/confirm the **PPO description.**
- 4. Review the PPO smart statement to ensure that the target and baseline numbers are correct.

<sup>&</sup>lt;sup>3</sup> The Media Topic for PPO 5 should be similar to "community needs and planned efforts and achievements."

#### Steps to add/review Annual Objectives (AO) (non-Media) for PPOs 1-4: PICH Awardees

- 1. In the CAP Details Screen, click on/ensure that you are in the tab of the appropriate PPO.
- 2. To add a non-media Annual Objective (AO), click on "Add AO". To review a non-media AO that has already been added to the CAP, click on the pencil icon next to the AO you wish to review. This will open the Edit Annual Objective (AO) screen.

- 3. In the Edit Annual Objective Screen, review the Parent PPO text to ensure that the AO is located under the correct PPO.
- 4. Next, in the Smart Statement tab, build/edit your AO smart statement by selecting from drop down menus and entering information into text boxes. As you enter the information, the AO Smart Statement at the top of the screen will update automatically. If the AO has been preloaded, please confirm that the fields are correct.
  - **Direction:** Select whether you plan to <u>increase</u> or <u>decrease</u> the number of units of a setting.
  - **Setting:** Select the setting where the intervention will occur from the drop down list. If the AO's setting is not included in this drop down list, select "other". A text box will appear entitled 'Setting if Other'. Enter the setting in this box. Please select only one setting for each AO.
  - Setting if Other: Use this field to enter a unique setting if needed.
  - **Preposition:** If needed, select the appropriate preposition to complete the AO SMART statement.
  - Preposition if Other: Use this field to add additional language to your Smart Statement.

The following steps demonstrate how to add PPOs, Annual Objectives (non-media, Media, and Training/TA/Tools and Resources) and Activities for National Organization (National Org) awardees. Some of the steps described below only apply to Category A awardees. If not specified, the steps apply to both Category A and B awardees.

Steps to Add Project Period Objectives (PPO) 6-10: National Org Awardees

- 1. In the CAP Details screen, click on the tab of the **PPO** you wish to add. This will open the PPO tab.
- 2. Enter the **baseline** number for the PPO and enter the **target** reach, or the estimated number of people to benefit from the PPO by the end of the project period.
- 3. Enter the **PPO description.**
- 4. Review the PPO smart statement to ensure that the target and baseline numbers are correct.

- 4. Next, in the Smart Statement tab, build your AO smart statement by selecting from drop down menus and entering information into text boxes. As you enter the information, the AO Smart Statement at the top of the screen will update automatically.
  - Direction: Select whether you plan to increase or decrease the number of units of a setting.
  - **Setting:** Select the setting where the intervention will occur from the drop down list. If the AO's setting is not included in this drop down list, select "other". A text box will appear entitled Setting if 'Other'. Enter the setting in this box. Please select only one setting for each AO.
  - Setting if Other: Use this field to enter a unique setting if needed.
  - **Preposition:** If needed, select the appropriate preposition to complete the AO SMART statement.
  - Preposition if Other: Use this field to add additional language to your Smart Statement.

  - **Baseline:** The baseline figure for the number of units of the AO setting. This field will autocalculate after you enter the baseline number(s) for your sub-recipient(s).
  - **Target:** The target number of units of the AO setting. This field will auto-calculate after you enter the target number (s) for your sub-recipient(s).
  - Data Source: Enter the data source.
  - **Projected Reach Setting Units:** The estimated number of settings reached by this objective. This field will auto-calculate after you enter the Projected Reach for your sub-recipient(s).
  - **Projected Reach People:** The estimated number of people reached by this objective. This field will auto-calculate after you enter the Projected Reach for your sub-recipient(s).
  - Start Date: Select the month and the year that the annual objective will start.
  - End Date: Select the month and the year that the annual objective will end.
  - **Sub-recipients:** Your sub-recipient names will appear in the sub-recipient box once they have been added in the Sub-recipient screen (accessed from the Home Page). You must add sub-recipients in the sub-recipient screen prior to entering Baseline, Target, and Projected Reach People for the sub-recipients under the AOs. Enter the **Baseline, Target, and Projected Reach-People** for each of the sub-recipients that work on this AO. **Projected Reach-Setting Units** will

auto-populate for each sub-recipient after you enter the Baseline and Target. After you enter the numbers into the sub-recipient table, the total Baseline, Target, and Projected Reach numbers will automatically calculate in the fields above.

5. Review the AO SMART Statement in the top right of the screen to ensure it makes sense and accurately reflects the AO. If not, adjust the information provided in the dropdown menus and text boxes.

## 5. Sub-Recipients Section (National Org Category A Only)

The Sub-Recipient section of the DPMD is where National Org Category A awardees will enter their subrecipients. Please enter your sub-recipients prior to entering your Community Action Plan. Information entered in the Sub-Recipients screen will populate some of the fields for Annual Objectives under PPOs 1-4.

## Navigating the Sub-Recipients Section

To access the Sub-Recipients section of the DPMD, click on the Sub-Recipients button on the DPMD Home Page.

#### Figure63: Home Page

This will open the Sub-Recipient entry screen. To add a sub-recipient, enter the Sub-Recipient Name and the City where they are located. Select their state from the drop down menu and click "Add". This will add the sub-recipient to the list below. Continue adding sub-recipients until they have all been entered. You must enter your sub-recipients in the Sub-recipients Screen prior to entering PPOs 1-4.

#### 6. Budget Section

The Budget section displays all financial information regarding your organization's work. In this section, you will have the opportunity to allocate all costs including funding for contractors/consultants.

#### Navigating the Budget Section

After you have clicked the Budget button, the Budget screen will be displayed. On the screen, you will see a list of budget items (i.e. personnel, fringe, travel, equipment, supplies and indirect costs), including each of the personnel and contractor/consultants that you entered in the resources section.

You will also see the option to sort each budget item: 1. Personnel, 2. Fringe, 3. Travel, 4. Equipment, 5. Supplies, 6. Indirect Costs, 7. Contractor. For Year 1 Proposed (and subsequent years – at a later date), you will enter the amount allocated for each budget item. A total budget will be displayed in the last row.

Adding/Reviewing a PPO: I	PPO Tab
Term	Definition
Project Period Objective (PPO)	<ul> <li>The PPO is an objective for the entire project period. PPOs state how many people will be affected by the "reach" of all of the AOs associated with this PPO. The text for the PPO SMART statement cannot be changed; only target and baseline numbers may be added. The PPOs vary according to FOA. The PPOs for PICH awardees are: <ul> <li><u>PPO - 01</u>: Increase the number of people with improved access to smoke-free and/or tobacco-free environments from X to Y by September 2017.</li> <li><u>PPO - 02</u>: Increase the number of people with improved access to environments with healthy food and beverage options from X to Y by September 2017.</li> <li><u>PPO - 03</u>: Increase the number of people with improved access to physical activity opportunities from X to Y by September 2017.</li> <li><u>PPO - 04</u>: Increase the number of people with improved access to physical activity opportunities from X to Y by September 2017.</li> <li><u>PPO - 04</u>: Increase the number of people with improved access to physical activity opportunities from X to Y by September 2017.</li> <li><u>PPO - 04</u>: Increase the number of people with improved access to physical activity opportunities from X to Y by September 2017.</li> <li><u>PPO - 04</u>: Increase the number of people with improved opportunities for chronic disease prevention, risk reduction or management through clinical and community linkages from X to Y by September 2017.</li> <li><u>PPO - 05</u>: Increase the number of public and partner education messages promoting [TOPIC] from X to Y by September 2017.</li> </ul> </li> </ul>
PPO Baseline	The baseline may be 0 or another number, but the baseline reach number should always be less than the target reach number.
PPO Target	The target number for the estimated number of people to benefit from the PPO by the end of the project period. The target reach number should always be more than the baseline reach number.
PPO Media Topic (PPO 5 Only)	The topic of the general communication activities around community needs, planned efforts, and achievements. In the Media Topic field, potential language could be: community needs and planned efforts and achievements; or, (Awardee Name) community efforts.
PPO Description	Describe the PPO by providing contextual details about the PPO's purpose, how it will impact a health problem, and specificity about the PPO's scope and people reached. The description should provide only information directly related to the PPO, and should not include background details such as community demographics, unless it states that a particular population is targeted. Descriptions should not be copied and pasted from one PPO to another. It is important that all descriptions do not include typos, abbreviated words, missing text, or acronyms and that all text is clearly spelled out so that it will show up in keyword searches.

Annual Objective (AO)	Each PPO has related AOs. Annual Objectives are specific interventions for one year intervals designed to meet the longer term PPO. They cover a 12-month timeframe and show incremental progress toward completion of the PPO. Each AO relates to one and only one PPO. Each PPO usually has approximately 3-5 AOs.
Smart Statement Tab	
Direction	Indicate whether you plan to increase or decrease the number of units of a setting.
Setting	The setting where the intervention AO will occur. Please select only one setting for each AO. If the setting is not included in the following list, select "Other" and enter the setting in the "Setting if Other" text box. Setting categories: Health Care Systems • Hospitals

- Primary Care Providers
- Mental Illness Providers
- Substance Abuse Facilities
- Health Insurance Companies
- Pharmacies

- Other (Specify)

Setting if Other	Use this field to specify the setting if "Other" is selected for the Setting field.
Preposition (optional)	If needed, select the appropriate preposition to complete the AO SMART statement. If the needed preposition is not included in the drop down list please select "Other" at the bottom of the list and enter the relevant text in the "Preposition if Other" text box. If you need to change the preposition back to being blank, use the delete key on your keyboard.
Preposition if Other	Use this field to add additional language to the AO smart statement or to enter a preposition not found in the Preposition drop down menu.
Intervention	A brief description of the intervention to be implemented. An intervention is a specific effort that when implemented will change health behaviors. Examples include improve school procurement policies, implement joint- use agreements, implement indoor multi-unit housing smoke-free policies, and implement core competency training for multi-disciplinary teams engaged in patient chronic disease management. Each AO should have only one type of intervention.
Baseline	The baseline figure for the number of units of the AO setting. For example,

	an AO may be working in 5 schools in a community where 10 schools
	already have the intervention. The baseline number would be 10. This field
	will auto populate once the sub recipient baselines are entered.
Target	The target number of units of the AO setting. If an AO is working in 5
	schools in a community in which 10 schools already have the intervention,
	the target would be 15 (i.e., 10+5). This field will auto populate once the
	sub recipient target numbers are entered.
Data Source	The name of the data source you are using to determine the baseline and
Ctart Data	target numbers for the Annual Objective.
Start Date End Date	The month and year that the annual objective will start. The month and year that the annual objective will end.
Description	Contextual information about how you plan to achieve the Annual Objective. The description provides more in-depth information than the
	smart statement, explains the setting and the methods for accomplishing
	the objective so those who are not familiar with your community can
	understand the objective. It should provide only information directly related
	to the AO, and not include extraneous details about health statistics or
	other background details. Avoid using unfamiliar acronyms.
Population/REACH Tab	
Projected Reach	The estimated number of units/setting reached by this objective.
(Setting/Units)	
Projected Reach (People)	The estimated number of people reached by this objective.
Population Option	The type of population on which the annual objective focuses: Population-
	wide or Priority Population. Population wide = Priority =
Priority Populations	Annual Objectives may focus on one or more Priority Populations:

Setting if Other	Use this field to specify the setting if "Other" is selected for the Setting field.
Preposition (optional)	If needed, select the appropriate preposition to complete the AO SMART statement. If the needed preposition is not included in the drop down list please select "Other" at the bottom of the list and enter the relevant text in the "Preposition if Other" text box. If you need to change the preposition

	back to being blank, use the delete key on your keyboard.
Preposition if Other	Use this field to add additional language to the AO smart statement or to

Intervention	A brief description of the intervention to be implemented. An intervention is a specific effort that when implemented will change health behaviors. Examples include improve school procurement policies, implement joint- use agreements, implement indoor multi-unit housing smoke-free policies, and implement core competency training for multi-disciplinary teams engaged in patient chronic disease management. Each AO should have only one type of intervention.
Baseline	The baseline figure for the number of units of the AO setting. For example, an AO may be working in 5 schools in a community where 10 schools already have the intervention. The baseline number would be 10. This field will auto populate once the sub recipient baselines are entered.
Target	The target number of units of the AO setting. If an AO is working in 5 schools in a community in which 10 schools already have the intervention, the target would be 15 (i.e., 10+5). This field will auto populate once the sub recipient target numbers are entered.
Data Source	The name of the data source you are using to determine the baseline and target numbers for the Annual Objective.
Start Date	The month and year that the annual objective will start.
End Date	The month and year that the annual objective will end.
Description	Contextual information about how you plan to achieve the Annual Objective. The description provides more in-depth information than the smart statement, explains the setting and the methods for accomplishing the objective so those who are not familiar with your community can understand the objective. It should provide only information directly related to the AO, and not include extraneous details about health statistics or other background details. Avoid using unfamiliar acronyms.

PPO Baseline	The baseline may be 0 or another number, but the baseline

	number.
PPO Target	The target number for the estimated number of people to benefit from the PPO by the end of the project period. The target reach number should always be more than the baseline reach number.
PPO Description	Describe the PPO by providing contextual details about the PPO's purpose, how it will impact a health problem, and specificity about the PPO's scope and people reached. The description should provide only information directly related to the PPO, and should not include background details such as community demographics, unless it states that a particular population is targeted. Descriptions should not be copied and pasted from one PPO to another. It is important that all descriptions do not include typos, abbreviated words, missing text, or acronyms and that all text is clearly spelled out so that it will show up in keyword searches.
