VOLUNTARY QUESTIONS: Diversity of Membership of Peer Review Panels

The Administration for Children and Families, U. S. Department of Health and Human Services is committed to **increasing the diversity of the non-Federal peer reviewers utilized in the competitive grants review process** to the extent permitted by law. You can help us achieve this goal by voluntarily indicating your race and/or ethnic heritage by checking the appropriate box for questions 1 thru 3. Please note that these questions utilize the standard Federal identification categories. Your assistance is invaluable in enabling the agency to promote broad representation, especially for underserved and underrepresented groups and track our progress on this important goal. The information will not be used in the selection of grant reviewers for Office of Planning Research and Evaluation discretionary grant programs. The information will be used solely to monitor the diversity of our grant reviewer pool.
