

# ANA PANEL REVIEWER PROFILE QUESTIONNAIRE - 2017

## THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average .50 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The Administration for Native Americans (ANA) annually conducts objective panel reviews for applications received in response to funding opportunity announcements (FOA). Historically, panel review sessions are held between April and June preceded by panel review training. A significant amount of time (estimated 8-10 hours) is required to read and score each application using a predetermined scoring criterion provided in the FOA. Panel reviews are composed of three reviewers and a facilitator (or chair). ANA is authorized to provide reviewers and facilitators honorarium in exchange for full participation in all required panel review activities.

Reviewers are responsible for submitting to the facilitator an evaluation of each application, providing written comments and scores based on the FOA evaluation criteria. Additionally, reviewers are required to fully participate in all scheduled telephone discussions of applications. Facilitators coordinate the panel discussions and draft a Panel Summary Report (PSR) which accurately reflects panel discussion, reviewer comments, and scores for each application.

If you are interested in becoming a reviewer or facilitator, please complete the questionnaire below. If you have reviewed for ANA in the past three years, please complete Section I only unless your information has changed. If you are new to the ANA panel review process, please complete Sections I and II. If you have questions or need assistance, contact the ANA Help Desk at 1-877-922-9262.

To apply, please complete this form and attach it, along with your resume, to an e-mail and send to ANAReviewer@acf.hhs.gov. You will receive a confirmation that your application has been received

## Writing Sample

Please read the Evaluation Criteria: Need for Assistance and the excerpt from a sample application below. In the space provided, please draft a response detailing strengths and weaknesses of the application based upon the information provided in the excerpt.

### **Evaluation Criteria: Need for Assistance**

To evaluate the Need for Assistance, reviewers will consider the extent to which the application includes:

- A. Concise problem statement that identifies the current condition(s) to be addressed by the project.
- B. Supporting information or data detailing the scope and nature of the problem.
- C. Current challenges standing in the way of addressing the problem.
- D. A clear description of the community to be served and who the intended beneficiaries are.

### **Sample Application Excerpt**

The problem or issues faced by the AUIC are varied but all revolve around one theme - the AUIC has been working for years to provide services that meet the unique needs of our native community but infrastructure weaknesses, including staffing shortages, board member professional development, policy and procedure development, community outreach and the development and implementation of additional services have all been hampered by the fact that the AUIC does not have a strategic plan or an infrastructure to implement a strategic. Instead, the AUIC focus has been to pursue money where it is available and provide some services in order to keep the doors open. However, this has been done without involving the community in determining the most pressing priorities. This disconnect often times leaves the most pressing problems unresolved. The problem statement is twofold in that to truly build capacity within a small Native Urban organization you must have a multi-pronged approach to build that capacity. Because of the tough economic time faced by all Americans, especially Native Americans, and the severe lack of discretionary funds to meet these needs any organization must address these problems in a holistic manner. We have identified two interrelated problems that have created our inability to meet our community needs.

Our Problem Statement is: (1) The staff and Board have never had the opportunity or funds to be trained in organizational management skills necessary to govern and manage a growing non-profit organization and (2) Native Americans within the Aniwer district are not utilizing the social service providers within Aniwer to meet their current needs and to assist in the process of becoming self-sufficient because of a perceived lack of cultural awareness among the social service providers.
