SUPPLEMENTARY INFORMATION:**I. Abstract**

The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer

Continental Shelf (OCS). The Secretary's responsibility, according to various laws, is to manage mineral resource production from Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected under those laws. We have posted those laws pertaining to mineral leases on Federal and Indian lands and the OCS at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands.

You can find the information collections covered in this ICR at 30 CFR parts:

- 1202, subpart H, which pertains to geothermal resources royalties.

- 1206, subparts F, H, and J, which pertain to product valuation of Federal coal, geothermal resources, and Indian coal.

- 1210, subparts E and H, which pertain to production and royalty reports on solid minerals and geothermal resources leases.

- 1212, subparts E and H, which pertain to recordkeeping of reports and files for solid minerals and geothermal resources leases.

- 1217, subparts E and H, which pertain to audits and inspections of coal, other solid minerals, and geothermal resources leases.

- 1218, subparts E and F, which pertain to royalty, rental, bonuses, and other monies payment for solid minerals and geothermal resources.

All data reported is subject to subsequent audit and adjustment.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The lessee, or designee, must report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals.

Information Collections

ONRR, acting for the Secretary, uses the information that we collect to ensure

that lessees accurately value and appropriately pay all royalties based on correct product valuation. ONRR and other Federal Government entities, including the Bureau of Safety and Environmental Enforcement, Bureau of Land Management, Bureau of Indian Affairs, and State and Tribal governmental entities, use the information for audit purposes and for evaluating the fairness of product valuation or allowance claims that lessees submit. Please refer to the burden hour chart for all reporting requirements and associated burden hours.

Furthermore, ONRR proposes implementing a new form ONRR-4440, Solid Minerals Sales Summary, to collect current data elements in a standardized format to support ONRR's compliance efforts for all solid mineral leases. Lessees of coal and other solid minerals from Federal and Indian leases will submit required data on form ONRR-4440. Lessees will find the required data elements in the table in 30 CFR 1210.202. The sales summary information will aid ONRR in determining a lessee's compliance with applicable laws, rules, regulations, and sales contracts.

Currently, lessees are required to submit sales summaries electronically where possible by submitting internally generated information as an attachment to an email message using any format they have available. Over 95 percent of lessees use this submittal method. ONRR is developing an automated system that would receive and store the sales summary data that lessees submit on the proposed form ONRR-4440. Lessees would submit, and ONRR would utilize the submitted data in two phases. Phase 1 would require lessees to submit proposed form ONRR-4440

using the current submittal method. Phase 2 would require lessees to submit proposed form ONRR-4440 electronically. This submittal process would be similar to the current process that ONRR requires lessees to follow to submit form ONRR-4430, Solid Minerals Production and Royalty Report. The proposed standard collection format using available information technology would greatly reduce the number of ONRR site visits, emails, or telephone contacts needed to clarify company-generated sales summary documents.

A. Solid Minerals

Producers of coal and other solid minerals from any Federal or Indian lease must submit current form ONRR-4430, Solid Minerals Production and Royalty Report, and other associated data formats. These companies also report certain data on form ONRR-2014, Report of Sales and Royalty Remittance (OMB Control Number 1012-0004). Producers of coal from any Indian lease must also submit form ONRR-4292, Coal Washing Allowance Report, and form ONRR-4293, Coal Transportation Allowance Report, if they wish to claim allowances on form ONRR-4430. The information ONRR requests are the minimum necessary to carry out our mission and places the least possible burden on respondents.

B. Geothermal Resources

This ICR also covers some of the information collections for geothermal resources, which ONRR groups by usage (electrical generation, direct use, and byproduct recover), and by disposition of the resources (arm's-length (unaffiliated) contract sales, non-arm's-length contract sales, and no contract sales) within each use group. ONRR relies primarily on data that payors

report on form ONRR-2014 for the majority of our business processes, including geothermal information. In addition to using the data to account for royalties that payors report, ONRR uses the data for monthly distribution of mineral revenues and audit and compliance reviews.

OMB Approval

We will request OMB approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge fiduciary duties and may also result in the loss of royalty payments. We protect the proprietary information that ONRR receives and do not collect items of a sensitive nature. It is mandatory that the reporters submit form ONRR-4430. Also, ONRR requires that reporters submit forms ONRR-4292, ONRR-4293, and ONRR 4440 to obtain benefits for claiming allowances.

Estimated Annual Reporting and Recordkeeping “Non-hour” Cost Burden: We have identified no “non-hour” cost burdens associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person does not have to respond to, a collection of information unless it displays a currently valid OMB control number.

III. Request for Comments

Section 3506(c)(2)(A) of the PRA requires each agency to “* * * provide 60-day notice in the **Federal Register** * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *.” Agencies must specifically solicit

comments to (a) evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information that ONRR collects; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting “non-hour cost” burden to respondents or record-keepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and

startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods that you use to estimate (1) major cost factors, including system and technology acquisition, (2) expected useful life of capital equipment, (3) discount rate(s), and (4) the period over which you incur costs. Capital and startup costs include, among other items, computers and software that you purchase to prepare for collecting information and monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or to keep records

for the Federal Government; or (iv) as part of customary and usual business or private practices. We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. We also will post the ICR on our Web site at http://www.onrr.gov/Laws_R_D/FRNotices/ICR0120.htm.

Public Comment Policy: ONRR will post all comments, including names and addresses of respondents at <http://www.regulations.gov>. Before including Personally Identifiable Information (PII), such as your address, phone number, email address, or other personal information in your comment(s), you should be aware that your entire comment (including PII) may be made available to the public at any time. While you may ask us, in your comment, to withhold PII from public view, we cannot guarantee that we will be able to do so.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.
