

Secretary to decide whether the manufacturer has acted or is acting in compliance with this chapter and regulations prescribed under this chapter. On request of an officer, employee, or agent authorized by the Secretary, a recreational vessel manufacturer shall permit the officer, employee, or agent to inspect, at reasonable times, factories or other facilities, and records related to deciding whether the manufacturer has acted or is acting in compliance with this chapter and regulations prescribed under this chapter.

(b) Information reported to or otherwise obtained by the Secretary or the representative of the Secretary under this section containing or related to a trade secret or other matter referred to in section 1905 of title 18, or authorized to be exempt from public disclosure by section 552(b) of title 5, is confidential under section 1905. However, on approval of the Secretary, the information may be disclosed to other officers, employees, or agents concerned with carrying out this chapter or when it is relevant in a proceeding under this chapter.

HISTORICAL AND REVISION NOTES

| <i>Revised section</i> | <i>Source section (U.S. Code)</i> |
|------------------------|-----------------------------------|
| 4309 | 46:1463 |

Section 4309 requires the establishment and maintenance of certain records by manufacturers, and the inspection and access to these records by the Secretary, at reasonable times, so as to assure Federal enforcement officials that the manufacturer has acted or is in compliance with applicable laws and regulations. It also provides protection for matters related to trade secrets and exemptions from public disclosure.

§ 4310. Repair and replacement of defects

(a) In this section, "associated equipment" includes only items or classes of associated equipment that the Secretary shall prescribe by regulation after deciding that the application of the requirements of this section to those items or classes of associated equipment is reasonable and in furtherance of this chapter.

(b) If a recreational vessel or associated equipment has left the place of manufacture and the recreational vessel manufacturer discovers or acquires information that the manufacturer decides, in the exercise of reasonable and prudent judgment, indicates that a recreational vessel or associated equipment subject to an applicable regulation prescribed under section 4302 of this title either fails to comply with the regulation, or contains a defect that creates a substantial risk of personal injury to the public, the manufacturer shall provide notification of the defect or failure of compliance as provided by subsections (c) and (d) of this section within a reasonable time after the manufacturer has discovered the defect.

(c)(1) The notification required by subsection (b) of this section shall be given to the following persons in the following manner:

(A) by first class mail or by certified mail to the first purchaser for other than resale, except that the requirement for notification of the first purchaser shall be satisfied if the recreational vessel manufacturer exercises rea-

sonable diligence in establishing and maintaining a list of those purchasers and their current addresses, and sends the required notice to each person on that list at the address appearing on the list.

(B) by first class mail or by certified mail to subsequent purchasers if known to the manufacturer.

(C) by first class mail or by certified mail or other more expeditious means to the dealers and distributors of the recreational vessels or associated equipment.

(2) The notification required by subsection (b) of this section is required to be given only for a defect or failure of compliance discovered by the recreational vessel manufacturer within a reasonable time after the manufacturer has discovered the defect or failure, except that the manufacturer's duty of notification under paragraph (1)(A) and (B) of this subsection applies only to a defect or failure of compliance discovered by the manufacturer within one of the following appropriate periods:

(A) if a recreational vessel or associated equipment required by regulation to have a date of certification affixed, 10 years from the date of certification.

(B) if a recreational vessel or associated equipment not required by regulation to have a date of certification affixed, 10 years from the date of manufacture.

(d) The notification required by subsection (b) of this section shall contain a clear description of the defect or failure to comply, an evaluation of the hazard reasonably related to the defect or failure, a statement of the measures to correct the defect or failure, and an undertaking by the recreational vessel manufacturer to take those measures only at the manufacturer's cost and expense.

(e) Each recreational vessel manufacturer shall provide the Secretary with a copy of all notices, bulletins, and other communications to dealers and distributors of that manufacturer, and to purchasers of recreational vessels or associated equipment of that manufacturer, about a defect related to safety in the recreational vessels or associated equipment, and any failure to comply with the regulation or order applicable to the recreational vessels or associated equipment. The Secretary may publish or otherwise disclose to the public information in the notices or other information the Secretary has that the Secretary considers will assist in carrying out this chapter. However, the Secretary may disclose any information that contains or relates to a trade secret only if the Secretary decides that the information is necessary to carry out this chapter.

(f) If, through testing, inspection, investigation, or examination of reports, the Secretary decides that a recreational vessel or associated equipment to which this chapter applies contains a defect related to safety or fails to comply with an applicable regulation prescribed under this chapter and notification under this chapter is appropriate, the Secretary shall notify the recreational vessel manufacturer of the defect or failure. The notice shall contain the findings of the Secretary and shall include a

synopsis of the information on which they are based. The manufacturer may then provide the notification required by this chapter to the persons designated in this chapter or dispute the Secretary's decision. If disputed, the Secretary shall provide the manufacturer with an opportunity to present views and establish that there is no such defect or failure. When the Secretary considers it to be in the public interest, the Secretary may publish notice of the proceeding in the Federal Register and provide interested persons, including the National Boating Safety Advisory Council, with an opportunity to comment. If, after presentation by the manufacturer, the Secretary decides that the recreational vessel or associated equipment contains a defect related to safety or fails to comply with an applicable regulation, the Secretary may direct the manufacturer to provide the notifications specified in this chapter.

(g) The Secretary may prescribe regulations to carry out this section, including the establishment of procedures that require dealers and distributors to assist manufacturers in obtaining information required by this section. A regulation prescribed under this subsection does not relieve a manufacturer of any obligation imposed by this section.

HISTORICAL AND REVISION NOTES

| <i>Revised section</i> | <i>Source section (U.S. Code)</i> |
|------------------------|-----------------------------------|
| 4310 | 46:1464 |

Section 4310 imposes certain requirements on a recreational vessel and associated equipment manufacturer to provide notification of a defect or the failure of compliance after a manufacturer discovers the defect or failure. This section spells out the procedure for notification and who shall be notified. It assures the public of notification while protecting the manufacturer from the potential of damaging and inaccurate disclosures.

AMENDMENTS

2002—Subsec. (c)(1)(A) to (C). Pub. L. 107-295, § 433(2), inserted “by first class mail or” before “by certified mail”.

Subsec. (c)(2)(A), (B). Pub. L. 107-295, § 433(1), substituted “10” for “5”.

§ 4311. Penalties and injunctions

(a) A person willfully operating a recreational vessel in violation of this chapter or a regulation prescribed under this chapter shall be fined not more than \$5,000, imprisoned for not more than one year, or both.

(b)(1) A person violating section 4307(a) of this title is liable to the United States Government for a civil penalty of not more than \$5,000, except that the maximum civil penalty may be not more than \$250,000 for a related series of violations.

(2) If the Secretary decides under section 4310(f) that a recreational vessel or associated equipment contains a defect related to safety or fails to comply with an applicable regulation and directs the manufacturer to provide the notifications specified in this chapter, any person,

including a director, officer or executive employee of a corporation, who knowingly and willfully fails to comply with that order, may be fined not more than \$10,000, imprisoned for not more than one year, or both.

(3) When a corporation violates section 4307(a), or fails to comply with the Secretary's decision under section 4310(f), any director, officer, or executive employee of the corporation who knowingly and willfully ordered, or knowingly and willfully authorized, a violation is individually liable to the Government for a penalty under paragraphs (1) or (2) in addition to the corporation. However, the director, officer, or executive employee is not liable individually under this subsection if the director, officer, or executive employee can demonstrate by a preponderance of the evidence that—

(A) the order or authorization was issued on the basis of a decision, in exercising reasonable and prudent judgment, that the defect or the nonconformity with standards and regulations constituting the violation would not cause or constitute a substantial risk of personal injury to the public; and

(B) at the time of the order or authorization, the director, officer, or executive employee advised the Secretary in writing of acting under this subparagraph and subparagraph (A).

(c) A person violating any other provision of this chapter or other regulation prescribed under this chapter is liable to the Government for a civil penalty of not more than \$1,000. If the violation involves the operation of a vessel, the vessel also is liable in rem for the penalty.

(d) When a civil penalty of not more than \$200 has been assessed under this chapter, the Secretary may refer the matter of collection of the penalty directly to the United States magistrate judge of the jurisdiction in which the person liable may be found for collection procedures under supervision of the district court and under an order issued by the court delegating this authority under section 636(b) of title 28.

(e) The district courts of the United States have jurisdiction to restrain a violation of this chapter, or to restrain the sale, offer for sale, introduction or delivery for introduction into interstate commerce, or importation into the United States, of a recreational vessel or associated equipment that the court decides does not conform to safety standards of the Government. A civil action under this subsection shall be brought by filing a petition by the Attorney General for the Government. When practicable, the Secretary shall give notice to a person against whom an action for injunctive relief is contemplated and provide the person with an opportunity to present views and, except for a knowing and willful violation, shall provide the person with a reasonable opportunity to achieve compliance. The failure to give notice and provide the opportunity does not preclude the granting of appropriate relief by the district court.

(f) A person is not subject to a penalty under this chapter if the person—

(1) establishes that the person did not have reason to know, in exercising reasonable care, that a recreational vessel or associated equipment does not conform with the applicable
