

Dear Colleague,

This is just a reminder that if you would like to participate in upcoming NIST lipidomics/metabolomics interlaboratory comparison exercises and/or would like to help define the framework of such studies, which includes the creation of new omics-based reference materials, you need to take the short survey that was previously emailed to you. The survey should be completed in less than 10 min.

Below is a link to the online survey. If you have questions, please do not hesitate to ask.
