Based on the description and justification for the Application for Training activities and on the definition of research defined by the Federal Policy for the Protection of Human Subjects (45 CFR 46), the Application for Training information collection is not considered research and therefore does not require IRB approval.

Should there be any questions regarding this determination that IRB approval is not required, feel free to contact me at [mjg6@cdc.gov](mailto:mjg6@cdc.gov) or 404-498-6169.
