Introduction to Victimization

(V_INTRO)

When we began this survey, I told you we'd be discussing health and injuries. The next set of questions asks about experiences that can directly impact your health or may have resulted in injury. These experiences may or may not have happened to you. There will be some questions about physical injuries, harassing behaviors, and unwanted sexual activity.

Remember, you don't have to answer any question that you don't want to. We suggest that you be in a private setting during the survey. If, at any time, you do not feel physically or emotionally safe, you can just say "Goodbye". I will understand and I will not call you back. You can call me back if you'd like at 888-vvv-vvvv, ext. vvvv.

(D_INTRO1a)

I’m going to ask you some detailed questions about times in your life when you may have ever experienced unwanted sexual situations with anyone, including strangers or someone you knew such as a romantic or sexual partner, a family member, a friend, teacher, co-worker or supervisor, or someone you have known for only a short time. These questions are detailed and the language is explicit, which some people may find upsetting. It is important that I ask the questions this way so that you understand what I mean. Your answers will help us to learn how often these things happen. You can skip questions you don’t want to answer and you can stop at any time.

First, I’m going to ask you about unwanted sexual situations, including verbal harassment and unwanted touching.

Sometimes unwanted sex happens after a person is pressured into it, such as through verbal and emotional pressure and other nonphysical kinds of pressure. The following questions are about times in your life when someone may have ever used verbal or other nonphysical pressure to make you have sex when you didn't want to. This could be anyone, including strangers or someone you knew such as a romantic or sexual partner, a family member, a friend, teacher, co-worker or supervisor, or someone you have known for only a short time.

ALCOHOL AND DRUG FACILITATED UNWANTED SEX

E_INTRO1a

In this section I will ask you about situations in your life in which you ever experienced unwanted sex or sexual contact. By this I mean sexual contact that you did not consent to and that you did not want to happen.

Sometimes unwanted sex or sexual contact happens when a person is unable to consent to it or stop it from happening because they were too drunk, high, drugged, or passed out from alcohol, drugs, or medications. This can include times when they voluntarily consumed alcohol or drugs or times when they were given alcohol or drugs without their knowledge or consent. Please remember that even if someone uses alcohol or drugs, what happens to them is not their fault.

INTERVIEWER NOTE:

ATTEMPTED PHYSICALLY FORCED SEX

(E_INTRO3a)

The next set of questions are about times in your life when someone ever **ATTEMPTED** to have sex or sexual contact with you by using physical force or threats of harm but sex did **NOT** happen. Examples of physical force are being pinned or held down, using violence or threats of violence, or not physically stopping after you said no. To be clear, we are now asking only about times when sex was unwanted and you did not give consent, and sex did not happen.
