

Attachment 21: Dust Collection Questionnaire:

OMB #: 0925-0406
Expiration date: 09/30/2016

THE STUDY OF BIOMARKERS OF EXPOSURES AND EFFECTS IN AGRICULTURE Dust Collection Questionnaire

_____ – DT02

If you own a vacuum cleaner, and if you agree, we would like to collect the dust from your machine. Between now and your visit, you may use your vacuum cleaner as you normally would, but we ask that you not empty it or change bags if possible. If you do need to change bags or empty the vacuum canister, we ask that you try to use the vacuum at least once with the new bag or empty canister before your visit, so there is dust available in the machine. When we come to your home, we will ask to see the machine and will either remove the used bag or empty the dust from the machine or bag. If you have more than one vacuum machine, we would like to obtain the dust sample from the vacuum you use most frequently in your home. If the machine you use most often is a hand-held vacuum or shop vac, and you also own a standard vacuum cleaner, we would like to obtain the dust sample from the standard vacuum.

We have prepared this brief questionnaire to ask for information about your vacuum cleaner, recent use, and the areas in your home where you may have vacuumed. If there are others in your household that can help you with answering these questions, please feel free to share the questionnaire with them. We will collect and review your questionnaire during the home visit. **Please call us at 1-800-xxx-xxxx if you have any questions.**

Instructions

- Please use a black or blue pen to complete this form. Do not use a felt-tip pen or a pencil.
- Mark to indicate your answer.
- If you want to change your answer, mark through the box on the wrong answer , and mark the correct answer.
- Your answers are important. Please print clearly using uppercase, block letters (for example, "WEDNESDAY").

Today's Date: |__|_|/|__|_|/|__|_|
 M M D D Y Y
