Have you had a chance to review the consent form for the **farm** visit? Do you have any questions at this time? We will review these materials during the visit (tomorrow).

Did you receive the **other materials** about the home visit, and have a chance to review them? **You should have received a urine collection kit and instructions.** Do you have any questions at this time? Please be sure to collect this sample on the morning of your home visit and store it in your refrigerator until **my colleague comes** to pick it up. **In addition, did you have a chance to review the dust collection questionnaire form? Do you have any questions? My colleague will collect the form at the visit when she collects the household dust from your vacuum.**

For the home visit, there will need to be a quiet area with a table such as a kitchen or dining room, in which to complete the interview and **sample** collection**s**. Do you have space that can be used for these activities?
