

Justification for Nonsubstantive Change
Creditable Coverage Disclosure to CMS OnLine Form and Instructions
CMS-10198, OMB 0938-1013

The Creditable Coverage Disclosure Form has been updated to allow the form to fit on one page, instead of the previous multiple pages. None of the data elements and/or information has changed.

This nonsubstantive change will provide permit entities with information pertaining to the new contractor and will furnish the more efficient form.
