[Programming note: text for when father responds with something other than the number corresponding to a response: Sorry, your response did not match any of the options for this question. Please try again.]

Fielding Assumption:

Our goal is to use information we download from nFORM -- about treatment assignment, enrollment, and attended which sessions -- to target when someone is eligible to receive the first module. All subsequent modules will be assigned in a random order for the subsequent weeks, except for Module B. A father must be absent during a given week to be eligible for Module B. The response options for all questions may need to be tailored to the control group.

To be eligible for text surveys, fathers must either have a smartphone or an email address for the purpose of incentive delivery.

MODULE A: ENGAGEMENT DURING PROGRAM

*Sample/Frequency: This module could be asked of any cohort in any week, for **program and control** group participants in any site. To test whether receiving these questions primes either group, we suggest sending the module to a portion of the sample at one time and then sending it to the other portion a week later. This way we can still capture the responses of the full sample, but can eventually look at the MIS data to determine if we see an uptick in participation in the week or two that follows the message receipt.*

Hello!

Welcome to the Building Bridges and Bonds study (B3) website. You may remember agreeing to participate in this study when you enrolled in services at [B3 PROGRAM NAME]. One part of the study is answering a few questions sent to your mobile phone to learn about your opinions of the program. The questions will be sent to you through text message and you will have multiple answers to choose from that best describe your experience.

You will be asked to answer one short survey about once a week for no more than 6 total surveys. Each survey includes no more than 6 questions and answering the questions will take no more than 5 minutes each time. When eligible, you will receive \$5 for completing a survey, getting up to \$20 total for completing all of the surveys. You will receive the money with an electronic gift card either by text message or email, your choice, after completing the eligible surveys.

Answering the mobile survey is your choice. There are no penalties if you decide to not take the survey, or skip one or more questions. Your participation in this survey is completely voluntary.

Your name will not be included in any written reports and your responses will be kept private to the extent permitted by law.

MDRC is conducting the B3 study on behalf of ACF. ACF obtained Office of Management and Budget approval for the collection of this information.

If you have any questions or concerns, please contact the B3 study team at B3@mdrc.org or **INSERT PHONE.**

THE PAPERWORK REDUCTION ACT OF 1995

This collection of information is voluntary and will be used to learn about the effects of parenting and employment services for fathers. Public reporting burden for this collection of information is estimated to average 7 minutes per module for up to five modules, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is 0970-0XXX and the expiration date is XX/XX/XXXX.
