SUPPLEMENTARY INFORMATION:

I. Abstract

Under 54 U.S.C. 100101 (National Park Service Act Organic Act), we must preserve America’s natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Meeting this mandate requires that we balance preservation with use. Maintaining a good balance requires both information and limits. In accordance with regulations at 36 CFR parts 1 through 7, 13, 20, and 34, we issue permits for special park uses. Special park uses cover a wide range of activities including, but not limited to, special events, First Amendment activities, grazing and agricultural use, commercial filming, still photography, construction, and vehicle access.

We currently use the below listed forms to collect information for special use permits.

- 10-930 (Application for Special Use Permit),
- 10-930S (Application for Special Use Permit (short form)). The short form will reduce the burden on applicants for smaller, less complicated activities, such as small picnics, gatherings, weddings, etc.
- 10-931 (Application for Commercial Filming/Still Photography Permit (short form)),
- 10-932 (Application for Commercial Filming/Still Photography Permit (long form)) to collect information for special use permits.
- Form 10-933 (Application for Vehicle Use). This new form applies specifically to vehicle access such as off-road, over-sand, or commercial vehicle access, as well as snow mobile and watercraft. We will only request

information specific to the activity eliminating unneeded information.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values.
