

subheading 7307.99.50, HTSUS, as other tube or pipe fitting (for example, couplings, elbows, sleeves), of iron or steel. It is CBP's position that the subject fitting is a part of general use that can connect tubes and pipes, and is thus classified under heading 7307, HTSUS, by application of GRI 1 and the exclusionary effect of Legal Note 1(g) to Section XVI. In order for classification by application of GRI 3 to be appropriate, a good must be unable to be classified by application of GRIs 1 or 2, and the good must be *prima facie* classifiable in two or more headings. In this instance, goods of heading 7307, HTSUS, are explicitly excluded from heading 8412, HTSUS, by application of Legal Note 1(g) to Section XVI. Therefore, GRI 3 is not applicable. Historically, CBP has recognized that, for tariff purposes, hoses are not interchangeable with pipes or tubes. In HQ 088393, dated March 26, 1991, CBP examined the difference between hose fittings, and tube or pipe fittings. In that ruling, CBP first noted that the courts have long recognized that although a "hose" may be considered a "tube" in common meaning, they are not interchangeable terms for tariff purposes. Citing *John V. Carr & Son, Inc. v. United States*, 76 Cust.Ct. 162, C.D. 4652 (1976) (interpreting the meanings of the terms "hose" and "pipes and tubes" within the context of the Tariff Schedule of the United States (TSUS)); see also *J.E. Bernard & Co., Inc. v. United States*, 64 Cust.Ct. 425, C.D. 4029 (1970) (in comparing the TSUS tariff terms "copper tubing" and "flexible metal tubing," the court expressed the principle that quite often articles that literally appear to respond to the common meaning of a tariff term are not the articles classified in a tariff sense); *R.J. Saunders & Co., Inc. v. United States*, 49 C.C.P.A. 87, C.A.D. 801 (1962). Thus, under the TSUS, CBP consistently held that hose fittings are not properly classifiable under the TSUS provision for pipe and tube fittings. See C.I.E. 953/63 (July 2, 1963), C.I.E. 1684/65 (October 18, 1965), TC 465.251 M (June 18, 1968), TC 426.89 AS (November 27, 1968), MFG 423.371 G (September 8, 1970), and HQ 064538 (April 17, 1980). While prior TSUS cases are not dispositive, "[n]evertheless, on a case-by-case basis prior decisions should be considered instructive in interpreting the HTSUS, particularly where the nomenclature previously interpreted in those decisions remains unchanged and no dissimilar interpretation is required by the text of the HTSUS." H.R. Conf. Rep. No. 100-576, at 549-50 (1988),

reprinted in 1988 U.S.C.A.N. 1547, 1582-83; see also NY 870421, dated February 7, 1992.

The text of heading 7307, HTSUS, provides for "tube or pipe fittings," which is similar to the TSUS text in the cases discussed above ("pipe and tube fittings," heading 613, TSUS). Thus, with regard to the competing HTSUS provisions at issue, CBP's position is that if an iron or steel fitting is a part of general use and is designed in such a manner where it can be used in conjunction with tubes or pipes, or tubes, pipes and hoses, that fitting is classified in heading 7307. See NY K87518, dated July 21, 2004; see also NY H87517, dated February 20, 2002.

However, and again with regard to the competing headings at issue, if such fittings meet the terms of Note 2 to Section XVI and are considered to be parts of hydraulic systems, such as hose fittings (as opposed to "parts of general use" of heading 7307, HTSUS), they are classified in heading 8412, HTSUS. See NY K89798, dated October 18, 2004; NY N006172, dated February 28, 2007; NY H82321, dated June 25, 2001; NY N242950, dated June 26, 2013; see also HQ 956743, dated January 24, 1995 (stating the general principle).

CBP concludes that the subject fittings are parts of general use that can connect tubes and pipes, and are thus classified under heading 7307, HTSUS, by application of GRI 1 and the exclusionary effect of Legal Note 1(g) to Section XVI. Finally, with regard to Petitioner's argument that GRI 3 is applicable, in order for classification by application of GRI 3 to be appropriate, a good must be unable to be classified by application of GRIs 1 or 2, and the good must be *prima facie* classifiable in two or more headings. In this instance, goods of heading 7307, HTSUS, are explicitly excluded from heading 8412, HTSUS, by application of Legal Note 1(g) to Section XVI. Therefore, GRI 3 is not applicable. In addition, GRI 3 does not apply because the fittings do not consist of more than one material or substance.

The islands have often been on the “edge of society,” used to isolate people, institutions, and activities. After the talk, a business meeting will follow. The Council will introduce candidates interested in membership, hold elections for officers, and nominate Council representatives to the Partnership. Superintendent Giles Parker will also give updates about park operations and planning efforts.

**DATES:** March 9, 2016, from 6:00 p.m. to 8:00 p.m. (Eastern).

**ADDRESSES:** Museum of African American History, 14 Beacon Street, Suite 401, Boston, MA 02108.
