

## Customer Service Questionnaire

### TSA Aviation Channeling Service Provider Project

TSA would like your feedback on the customer service provided as part of the TSA Aviation Channeling Service Provider Project and help desk support that is provided by your Designated Aviation Channeler (DAC) (i.e., AAAE, MorphoTrust, and Telos ID). Your participation in this survey is requested but not required, and your response will help TSA gauge the effectiveness of services that the three TSA DACs are responsible to provide to you under their Other Transaction Agreement with TSA.

The objective of TSA's Aviation Channeling Project was to provide aviation stakeholders with a choice of DACs. The project began in April 2012, and since that time, some aviation stakeholders have exercised their new choice by selecting a new and different DAC. Given the fact that the project has operated for over a year now, TSA is interested in obtaining your feedback on the level of customer service that you receive as part of the new program.

For the purposes of this questionnaire, the terms "Customer Service", "Customer Support", and "Help Desk" are the same. To the extent practicable, responses should reflect the totality of your experience since April 2012.
