

**Statement of Disappearance (VA Form 21P-1775)**  
**OMB 2900-0036**

**A. JUSTIFICATION**

**1. Explain the circumstances that make the collection of information necessary. Identify legal or administrative requirements that necessitate the collection of information.**

The Department of Veterans Affairs (VA), through its Veterans Benefits Administration (VBA), administers an integrated program of benefits and services, established by law, for veterans, service personnel and their survivors. 38 U.S.C. 108 requires a formal "presumption of death" when a veteran has been missing for seven years. Entitlement to death benefits cannot be determined in these cases until VA has made a decision of presumption of death.

**2. Indicate how, by whom, and for what purposes the information is to be used; indicate actual use the agency has made of the information received from current collection.**

VA Form 21P-1775 is used to gather the necessary information to determine if a decision of presumptive death can be made for benefit payment purposes. It would be impossible to administer the survivor benefits program without this collection of information.

**3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.**

The collection of information does not involve the use of automated, electronic, mechanical, or other technological collection techniques. VA does not currently have technology in place to allow for the electronic submission of this form, though VA may create this technology in the future.

The form is available in electronically-fillable format on the [benefits.va.gov](http://benefits.va.gov) website. However, the form must be printed and physically submitted.

**4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.**

VBA conducted program reviews to identify duplication, but found none. There is no known Department or Agency which maintains the necessary information, nor is the information available through other sources within VA.

**5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.**

The collection of information does not affect small businesses or other small entities.

## Statement of Disappearance

**6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently as well as any technical or legal obstacles to reducing burden.**

VBA would be unable to properly administer benefits for the surviving dependents of Veterans without this form as there would be no mechanism to determine the presumption of death, a requirement for granting survivor's benefits.

**7. Explain any special circumstances that would cause an information collection to be conducted more often than quarterly or require respondents to prepare written responses to a collection of information in fewer than 30 days after receipt of it; submit more than an original and two copies of any document; retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years; in connection with a statistical survey that is not designed to produce valid and reliable results that can be generalized to the universe of study and require the use of a statistical data classification that has not been reviewed and approved by OMB.**

There are no special circumstances which would cause this information collection to be conducted more often than quarterly, or require respondents to prepare written responses to a collection of information in fewer than 30 days after receipt of it; submit more than an original and two copies of any document; retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years; in connection with a statistical survey that is not designed to produce valid and reliable results that can be generalized to the universe of study and require the use of a statistical data classification that has not been reviewed and approved by OMB.

**8. a. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the sponsor's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the sponsor in responses to these comments. Specifically address comments received on cost and hour burden.**

The sponsor's notice was published in the Federal Register on Wednesday, May 11, 2016 (81 FR 29332), soliciting comments on the information collection.

VBA received no public comments regarding this information collection.

**b. Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, clarity of instructions and recordkeeping, disclosure or reporting format, and on the data elements to be recorded, disclosed or reported. Explain any circumstances which preclude consultation every three years with representatives of those from whom information is to be obtained.**

VA did not consult with those from whom the information is to be obtained. The information is submitted once, on an ad-hoc basis. It is impossible to identify potential claimants before they claim the benefit by submitting the application.

**9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.**

No payments or gifts to respondents will be made under this collection of information.

## Statement of Disappearance

### **10. Describe any assurance of privacy to the extent permitted by law provided to respondents and the basis for the assurance in statute, regulation, or agency policy.**

The records are maintained in the appropriate Privacy Act System of Records identified as “Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records-VA (58VA21/22/28),” published at 74 FR 29275 (June 19, 2009).

### **11. Provide additional justification for any questions of a sensitive nature (Information that, with a reasonable degree of medical certainty, is likely to have a serious adverse effect on an individual's mental or physical health if revealed to him or her), such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private; include specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

There are no questions of a sensitive nature.

### **12. Estimate of the hour burden of the collection of information:**

- a. Number of Respondents: 10
- b. Frequency of Response: One-time
- c. Annual Burden Hours 28
- d. Estimated Completion Time: 2 hours and 45 minutes (165 minutes)
- e. Any person may apply for VA survivor’s benefits. The population of respondents may include minor children, working age adults, disabled adults, and elderly adults. Therefore it is not possible to make assumptions regarding the population of applicants, such as the average age of applicants or their average earnings. In order to estimate the costs to respondents, VBA used general wage information for the population as a whole.

The Bureau of Labor Statistics (BLS) gathers information on full-time wage and salary workers. According to the latest available BLS data, the median weekly earnings of full-time wage and salary workers are \$809.00. Assuming a forty (40) hour work week, the median hourly wage is \$20.23.

Legally, respondents may not pay a person or business for assistance in completing the application. Also, a person or business may not accept payment for assisting a respondent in completing the application. Therefore, there are no expected overhead costs for completing the application. VBA estimates the total costs of all respondents to be \$556.00 (28 burden hours x \$20.23 per burden hour).

### **13. Provide an estimate of the total annual cost burden to respondents or record-keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).**

The submission does not involve any record-keeping costs.

## Statement of Disappearance

**14. Provide estimates of annual cost to the Federal Government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operation expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.**

Total Processing/Analyzing Costs with Overhead	\$484.00
• GS-9/3 @ \$26.55 x 10 x 45/60 minutes =	\$199.00
• GS-9/3 Overhead at 100% of Salary=	\$199.00
• GS-5/3 @ \$17.52 x 10 x 15/60 minutes =	\$43.00
• GS-5/3 @ \$17.52 x 10 x 15/60 minutes =	\$43.00
Printing and production cost (\$90/thousand)	\$0.00
Total cost to government	\$484.00

Note: the hourly wage information above is based on the 2016 hourly wages for employees of the VA Regional Office at St. Paul, Minnesota. To account for overhead and fringe benefits, we factored in additional costs of 100% of employee salary. This is necessarily a rough adjustment, because methods of estimating these costs vary widely from study to study. Nonetheless, there is no practical alternative, and we believe that doubling the hourly wage to estimate total cost is a reasonably accurate estimation method.

**15. Explain the reason for any burden hour changes since the last submission.**

The respondent burden hours per response has not changed (2 hours and 45 minutes).

**16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

The information collected is not for tabulation.

**17. If seeking approval to omit the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

We are not seeking to omit the expiration date.

**18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submissions," of OMB 83-I.**

This submission does not include any exceptions to the certification statement.

## **B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS**

No statistical methods are used in this data collection.
