

Based on the presentation of additional test data, analysis, or other relevant and appropriate evidence, by Takata, an automobile manufacturer, or any other credible source, NHTSA may, after consultation with Takata, alter the schedule set forth in Paragraph 14 to modify or amend a DIR or to defer certain inflator types or vehicles, or a portion thereof, to a later DIR filing date. Any such evidence must be submitted to NHTSA no later than one-hundred-twenty (120) days before the relevant DIR filing date. This paragraph applies only to the DIRs scheduled to be issued on or after December 31, 2016 under the schedule established by Paragraph 14 of this Amendment.

The Agency believes it is important to provide additional guidance on the process and conditions under which NHTSA would consider altering the recall schedule to modify or amend a DIR or defer the filing of a DIR, as well as guidance on the standards and criteria that would guide such decision-making. This process shall not be used to expedite or expand the DIR schedule, nor shall it be used to eliminate a population of vehicles from the recall.

II. Process and Procedure

A. Petition: No later than 120 days before the applicable DIR filing date, Takata, a vehicle manufacturer, or other credible source (the "petitioner") may petition the Agency for a modification or amendment to the DIR schedule. The petition shall be in writing and shall be directed to the Associate Administrator for Enforcement, with a copy to Chief Counsel. The petition shall specify the precise modification or amendment to the DIR schedule being requested by the petitioner, including the affected vehicle makes, models, and model years (the "particular class of vehicles"). The petition shall also set forth all data, information, and arguments of the petitioner supporting its petition. To the extent the petitioner requests confidential treatment under 49 CFR part 512 in connection with any data, information, and arguments, it shall submit a publicly available summary of such confidential materials.

B. Public Notice and Comment: Within 14 days of receiving a petition, NHTSA shall publish a notice of the petition in the **Federal Register**. The notice shall include a brief summary of the petition, a description of the particular class of vehicles, a statement of the availability of the petition and other relevant information for public inspection, and an invitation to interested persons to submit written data, information, and arguments concerning the petition to a public

docket. The notice of the petition shall also specify the deadline for submitting data, information, and arguments concerning the petition, which deadline shall not be less than 14 days after the **Federal Register** notice.

C. Disposition of the Petition: After reviewing the written data, views, and arguments from the petitioner and any interested persons, as well as other available information, and after consulting with Takata, the Associate Administrator for Enforcement shall make a decision whether to grant or deny the petition. Notice of the grant or denial of the petition shall be issued to the petitioner, and to Takata and any affected vehicle manufacturer, no less than 45 days before the relevant DIR filing date. Notice of the grant or denial of the petition shall also be published in the **Federal Register**.

D. Appeal: Within 14 days of notice of a grant or denial in the **Federal Register**, any interested person may appeal the grant or denial of the petition to the Administrator. An appeal shall be in writing and shall be directed to the Administrator, with a copy to the Chief Counsel. The Administrator will base his final decision on the data, information, and arguments submitted in support of the petition and during the comment period, and other available information. The final decision will be issued no less than 5 days before the applicable DIR filing date. Notice of final decision shall also be published in the **Federal Register**.

III. Standard of Proof

NHTSA may grant the petition if the Agency finds that the written data, information, and arguments regarding the petition and other available information demonstrate, by a preponderance of the evidence, that either: (i) There has not yet been, nor will be for some period of years in the future, sufficient propellant degradation to render the inflators contained in the particular class of vehicles unreasonably dangerous in terms of susceptibility to rupture; or (ii) the service life expectancy of the inflators installed in the particular class of vehicles is sufficiently long that they will not pose an unreasonable risk to motor vehicle safety if recalled at a later date.

The Agency may rely on any relevant criteria in determining whether the available evidence satisfies the standard of proof. Generally, a petitioner may satisfy the standard of proof by submitting evidence concerning the physical attributes of the category of inflators at issue. Such evidence may include, but is not limited to, inflator diffusion rates, booster and propellant

moisture content (over time), wafer diameter, and closed-bomb test data. In evaluating this evidence, the Agency will closely scrutinize the number of inflators tested, the age of the inflators tested, and the history of the vehicles from which the inflators were removed. A petitioner may also satisfy the standard of proof through robust predictive modeling, which modeling shall be independently verified by NHTSA's expert, Dr. Harold Blomquist. In all instances, a petition will be denied if there has been a rupture incident in the field or in testing that involves the inflator type contained in the particular class of vehicles at issue.

Applicability/Legal Statement: This Enforcement Guidance Bulletin sets forth NHTSA's current interpretation and thinking on the process and procedures under Paragraph 17 of the Amendment, and the standards and criteria that will guide its decision-making. This Bulletin is not a final agency action and is intended as guidance only. This Bulletin is not intended, nor can it be relied upon, to create any rights enforceable by any party against NHTSA, the Department of Transportation, or the United States. Moreover, the process and procedures set forth herein do not establish any defense to any violations of the statutes and regulations that NHTSA administers. This Bulletin may be revised without notice to reflect changes in NHTSA's evaluation and analysis, or to clarify and update text.

[OMB Control No. 2900-0095]

Agency Information Collection (Pension Claim Questionnaire for Farm Income, VA Form 21P-4165); Activity Under OMB Review

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3521), this notice announces that the Veterans Benefits Administration (VBA), Department of

Veterans Affairs, will submit the collection of information abstracted below to the Office of Management and Budget (OMB) for review and comment. The PRA submission describes the nature of the information collection and its expected cost and burden; it includes the actual data collection instrument.

DATES: Comments must be submitted on or before August 22, 2016.

ADDRESSES: Submit written comments on the collection of information through www.Regulations.gov, or to Office of Information and Regulatory Affairs, Office of Management and Budget, Attn: VA Desk Officer; 725 17th St. NW., Washington, DC 20503 or sent through electronic mail to oira_submission@omb.eop.gov. Please refer to "OMB Control No. 2900-0095" in any correspondence.

SUPPLEMENTARY INFORMATION:

Title: Pension Claim Questionnaire for Farm Income, VA Form 21P-4165.

OMB Control Number: 2900-0095.

Type of Review: Revision of a currently approved collection.

Abstract: The Department of Veterans Affairs (VA), through its Veterans Benefits Administration (VBA), administers an integrated program of benefits and services, established by law, for veterans, service personnel and their survivors.

38 U.S.C. 1521 establishes a pension benefit for Veterans of a period of war who are permanently and totally disabled. 38 U.S.C. 1541 and 38 U.S.C. 1542 establish a survivor's pension benefit for the surviving dependents of Veterans of a period of war. Entitlement to pension benefits for Veterans and their surviving dependents is based on the family's countable annual income as required by 38 U.S.C. 1503 and net worth as required by 38 U.S.C. 1522.

The information collected on VA Form 21P-4165 will be used by VA to evaluate a claimant's income and net worth related to the operation of a farm for the purpose of establishing entitlement to pension benefits and to evaluate a beneficiary's ongoing entitlement to pension benefits.

Affected Public: Individuals or households.

Estimated Annual Burden: 1,038 hours.

Estimated Average Burden per Respondent: 30 minutes.

Frequency of Response: One time.
Estimated Number of Respondents: 2,075.

By direction of the Secretary:

Cynthia Harvey-Pryor,
Program Specialist, Office of Privacy and Records Management, Department of Veterans Affairs.
