How to use this spreadsheet

This spreadsheet is used to determine what industry codes and descriptions will be displayed for various types of businesses for the 2017 Industry Classification Report. See the Codes tab below for the industry code possibilities. The first column is the mailout code of the business that is currently on the Census Bureau's Business Register. The other columns next to the mailout code are the codes that will be displayed with their corresponding titles (see title tab at the bottom of the spreadsheet). Example: If the mailout code is 21000000, the industry codes in row 2, columns B through AA would be displayed. If the respondent does not see the description of their business, they would select the last code which then asks the respondent to describe their type of business.
