Education and Training Services Branch (ETSB) Customer Satisfaction Survey

The educational accreditation service comprises two phases. The first phase involves working with a continuing education consultant (CEC) to develop your training into a package for accreditation. The second phase involves working with a Training and Continuing Education Online (TCEO) course manager to upload and manage your training via the TCEO system. Some accredited trainings have multiple offerings over a period of time, and in these instances you might only work with your TCEO course manager without working with your CEC.

4. Which statement best describes your most recent experience? 

- I worked with both a CEC and a TCEO course manager
- I only worked with a TCEO course manager
