

REQUEST FOR DETERMINATION OF RESEARCH STATUS

To be completed by the staff member with lead responsibility for the project and approved by branch chief (if applicable) and Division ADS. A separate PGO funding memo is required if project is research and involves human subjects regardless of the CDC staff role.

- Instructions:**
- (1) Use this form to declare: (a) the research status of any project, (b) role or roles of CDC staff
 - (2) A short summary should be attached offering specific details about the project and the role of staff.
 - (3) Be sure to complete all applicable items, obtain appropriate signatures and submit this form for approval.

Tracking Number: CIMS Contract TBD/TBD

(Use PGO number if cooperative agreement, grant, etc.)

Date submitted: 02/08/2017

Title of Project: Customer Service Center for Training and Technical Assistance to Support Organizations in Scaling and Sustaining the National Diabetes Prevention Program

Dates for project period:

Beginning: 09/30/2017

Ending: 09/29/2020

Dates for funding (if applicable):

Beginning: 09/30/2017

Ending: 09/29/2018

Project is (choose one):

NOTE: Revision, as used below, refers to any substantive change made to the project including scope of project, funding restrictions, personnel, role of CDC staff member, determination of research status, etc.

☒ **New**

☐ **Revision**

☐ **Continuation, without revision(s)**

☐ **Continuation, with revision(s)**

Lead staff member:

Name: Jeannette May

Contact information:

Division: DDT

User ID: JXM5

Telephone: 770-488-5016

Scientific Ethics number: 10297

Mailstop: F75

Please indicate your role(s) in this project:

☐ **Project officer**

☐ **Technical monitor**

☐ **Principal investigator**

☐ **Investigator**

☐ **Consultant**

☒ **Other (please explain)**

Assisting with Contract Processing

1. Are any or all of the activities within this project DESIGNED to contribute to generalizable knowledge (i.e., research)?

☐ **YES**

☒ **NO**

If YES, list those activities which are research:

2. Is this CDC project research or public health practice (check all that apply)?

☐ **Research**

☒ **Public health practice**

Check one:

☐ **Human subjects involved**

☐ **Human subjects not involved**

Check all that apply:

☐ **Emergency Response**

☐ **Program evaluation**

☐ **Surveillance**

☒ **Other (please explain)**

Customer service center to provide technical assistance and training

3. If RESEARCH involving human subjects, has the project or research activities been reviewed by the CDC IRB for human subjects protection?

a. ☐ **NO, New project, not yet reviewed**

d. ☐ **YES, Reviewed and approved by CDC**

b. ☐ **NO, Existing project, not ready to submit**

If YES, please list protocol number and

c. ☐ **NO, Submitted for approval**

expiration date

e. ☐ NO, RESEARCH, no CDC investigators (CDC IRB not required)f. ☐ N/A (Not Applicable)

If RESEARCH, list any other CDC staff involved in this project, please include the name, role, and scientific ethics number

Name	Role (project officer, investigator, consultant, etc.)	Scientific ethics number Prin
Jeannette May		10297

If YOU THINK THE RESEARCH PROJECT MIGHT QUALIFY AS EXEMPT RESEARCH (as identified in 45CFR46.101), PLEASE ANSWER questions 4-6, OTHERWISE SKIP TO question 7.

4. Does the proposed research involve prisoners?

☐ YES If YES, this research cannot be exempted and must be reviewed by an IRB (skip to question 7).☐ NO

5. Does the proposed research involve fetuses, pregnant women, or human in vitro fertilization as targets (such that Subpart B would apply)?

☐ YES If YES, this research cannot be exempted and must be reviewed by an IRB (skip to question 7).☐ NOEducational Research

6.1 Is this research conducted in established or commonly accepted educational settings, AND does the research involve normal educational practices (e.g., research on regular and special education strategies or research on the effectiveness of, or comparison among instructional techniques, curricula or classroom management methods)?

☐ YES☐ NOResearch Involving Surveys, Interview Procedures (including Focus groups), Observation of Public Behavior, or Educational Tests

6.2 Will this research use educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior?

☐ YES☐ NO

If NO skip 6.3

Will children (<18 years of age) be research subjects?

☐ YES If YES, this research cannot be exempted and must be reviewed by an IRB (skip to item 7)☐ NO6.2.1 Is the information obtained recorded in such a manner that human subjects can be identified directly or indirectly through identifiers (such as a code) linked to the subjects;☐ YES☐ NO

6.2.2 Will any disclosure of the human subjects' responses outside of the research setting have the potential to place the subjects at risk of criminal or civil liability, or be damaging to the subjects' financial standing, employability or reputation? (Examples here may include: the collection of sensitive data regarding the subjects' (or relatives' or associates') possible substance abuse, sexuality, criminal history or intent, medical or psychological condition, financial status, or similarly compromising information).

☐ YES☐ NO

6.3 Will this research use educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior but the research is not exempt under paragraph 6.2 of this section:

☐ YES☐ NO

If NO skip to 6.4

6.3.1 Will this research involve human subjects that are elected or appointed public officials or candidates for public office?

☐ YES☐ NO

6.3.2 Does federal statute(s) require(s) without exception that confidentiality of the personally identifiable information will be maintained throughout the research and thereafter? (Note: CDC can use this exemption criterion only in the case where a 308(d) Assurance of Confidentiality has been obtained to cover the research).

☐ YES☐ NOExisting Data Which Is Publicly Available or Unidentifiable

- 6.4 Does this research involve only the collection or study of existing* data, documents, records, pathological or diagnostic specimens? (* 'existing' means existing before the study begins)?

☐ YES ☐ NO If NO skip to 7

- 6.4.1 Is this material or information publicly available?

☐ YES ☐ NO

- 6.4.2 Is this material or information recorded in such a manner by the investigator that the subjects cannot be identified directly or indirectly through identifiers linked to the subjects?

(Note: If a link is created by an investigator even temporarily, for research purposes, this criterion is not met. If a temporary link is created by clinical staff who already have access to the data, this criterion is met).

☐ YES (there are no identifying information and no unique identifiers or codes)YES

☐ NO (there are identifiers (including codes))

7. Please prepare and attach a short summary paragraph (<1 page); if this is new:

- a. Be sure to include the purpose of the project, specific details about the project and the role of the CDC staff member (s) in the project. In explaining one's role as a consultant be particularly careful to identify involvement in things like: study design decisions, oversight of protocol development, participation in review of data collection procedures, and participation in data analysis and/or manuscript preparation, as well as whether there will be access to identifiable or personal data.
- b. Explain your project status selection (research--non-exempt, exempt, no CDC investigator or not involving human subjects; public health practice). If you selected research not involving human subjects be sure to indicate if the data includes any personal information (e.g., name, SSN), linkable study identification numbers or codes, or geographical information.

Objectives:

The objectives of this contract are to strengthen CDC's capacity to provide information technology that is culturally appropriate to support training and information on prediabetes and the National DPP to further type 2 diabetes prevention efforts across the U.S. The overall objective is to develop a scalable and centralized location for diabetes support, closely linked to CDC, to include:

- a repository and distribution system for tools/materials and virtual and in-person trainings;
- the development and maintenance of an information technology platform for educational materials, electronic mailing lists, third-party social media sites (such as Twitter and Facebook), and a "National DPP Ask" Help Desk (hereafter referred to as "Help Desk") to connect stakeholders to technical assistance coordinators and subject matter experts;
- the development and maintenance of an information technology platform to systematically track and analyze delivery of technical assistance, training, and materials to support the growth of the National DPP;
- a repository and distribution system of information to educate and inform stakeholders about prediabetes and the National DPP.

Scope of Work:

The development of a Customer Service Center (CSC) was identified as a priority for the National DPP. As outlined, the CSC will serve four main functions:

- 1)Provide a centralized location for easy access to DPRP resource materials (videos, toolkits, webinar archives, etc.) to support CDC-recognized organizations, organizations considering applying for CDC recognition, and other partners;
- 2)Provide an information platform to supplement current CDC efforts in training, technical assistance, and consultation to link organizations to subject matter expertise (SME) and consultation necessary to assist CDC partners and stakeholders in scaling and sustaining the National DPP, particularly in the areas of coverage and program implementation;
- 3)Provide an automated platform to triage and respond to questions submitted to the National DPP Help Desk mailbox (DPRPASK@cdc.gov) to enhance the National DPP's current method for receiving and responding to questions from partners; and
- 4)Provide a centralized location for easy access to information about prediabetes and the National DPP.

8. Please list the primary project site and all collaborating site(s).

Explanation of project components:

9. If project involves research that is funded extramurally, list amount of award that should be restricted pending IRB approval and describe which project components will be affected, if known:
