2018 Science Ambassador Fellowship Summer Course Satisfaction Survey

- Goal of the study (e.g., determine behavioral factors that influence changes in weight over time or evaluate program delivery processes): Improve workshop attendees' experience and ensure the CDC Science Ambassador Fellowship summer course is meeting its goals and attendees' needs
- Intended use of the resulting data (e.g., provide suggestions for improving community-based programs): To provide suggestions for improving summer course content and sessions, logistics, and communication.
- Methods to be used to collect (e.g., prospective cohort design; randomized trial; etc.): Web-based survey using Survey Monkey
- The subpopulation to be studied (e.g., school-age children in North Carolina, conference attendees): STEM educational leaders and middle and high school teachers who participated in the 2018 CDC Science Ambassador Fellowship summer course.
- How data will be analyzed (e.g., logistic regression, descriptive statistics): Data will be collated and analyzed using descriptive statistics.
