Academic Partnerships to Improve Health (APIH) Program Fellowship Orientation Survey

- **Goal of the collection:** DSEPD APIH program and association partners wants to collect information from fellows about their orientation to the fellowship and CDC and to seek feedback on areas for fellowship program improvement in orienting new fellows to the program.
- **Intended use of the resulting data:** DSEPD APIH and association partner staff will use the results obtained from the new fellow orientation survey to inform future orientation sessions, resources to include for new fellows for a successful transition to their fellowship positions at CDC campuses, recruitment of fellows and host sites; update fellowship curricula, fellowship competencies, and required activities to address priority training needs; ensure fellows' service provides benefit to host sites; and improve the overall management and delivery of DSEPD APIH managed fellowship program.
- **Methods to be used to collect:** The APIH Orientation survey are administered electronically by Survey Monkey.
- **The subpopulation to be studied:** Respondents to the Survey (Attachment1 & Attachment 2) will be new ASPPH and AACN Fellows of the CDC Public Health Fellowship Programs under the APIH CoAg. umbrella.
- **How data will be analyzed** (e.g., logistic regression, descriptive statistics): Simple analysis techniques will be performed to group, organize, and identify themes or repeated insights/feedback in the information collected. No statistical analyses is planned.
