

Request for Non-substantive Change

Assessing the Impact of Organizational and Personal Antecedents on Proactive Health/Safety Decision

OMB Approval #0920-1104 – Expiration date 02/28/2019

Justification for Non-substantive change:

We are requesting a change request for an error pertaining to the NOA for 0920-1104 which displays a decrease in the burden hours for this ICR which was approved on 02/24/2016. The information in the NOA does not align with the burden table that was included in the original Supporting Statement which was approved by OMB. Below is the original table that was submitted to OMB along with the information that appears in the attached NOA.

We request that the NOA be updated to reflect the burden hours that appear in the approved ICR.

Burden table submitted to OMB:

Type of Respondent	Form Name	No. of Respondents	No. Responses per Respondent	Average Burden per Response (in hours)	Total Burden Hours
Mine Safety/Health Operator	Mine Recruitment Script	8	1	15/60	2
Mine Employee	Mine Worker Oral Consent Script	600	1	5/60	50
	Mine Worker Survey	600	1	15/60	150
Total					202

The Notice of Action:

Number of Responses: 810

Number of Hours: 134
