

Public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0046). Do not return the completed form to this address.

NCI Cohort Consortium Working Group / Progress Report

Date:

Name of Working Group / Project:

Presenter(s) or Lead Investigator(s):

Other Investigators:

1. When was the working group or project was established (Year and Month)?

2. How was the working group or project was formed?

3. Cohorts participating in working group or project:

a. Number of cohorts participating in working group or project _____

b. Names of cohorts participating in working group or project

4. Junior Investigator involvement (i.e., investigators in their first few years or postdoctoral fellows)

a. Number of junior investigators involved in working group or project

i. _____ Current

ii. _____ Past

b. In what capacity, if any, have these individuals served on the project (project lead, primary or corresponding author(s), etc.)?

5. Current status

a. Accomplishments to date (include list of publications and topic areas covered).

NOTE - If presenting, this should be very brief. Although the Steering Committee is very interested in your scientific discoveries, we ask that you reflect on your experiences – are you where you wanted to be at this point in the project, are you going in a different direction than you expected, are you pleased or frustrated?)

- b. Please specify funding source for the following:
 - i. Preparation of data files by each participating cohort
 - ii. Genotyping or other assays
 - iii. Data harmonization and analysis
- c. Other projects that are building on this project / working group (spin-off projects)
- d. Future Plans

6. List the successes with the working group or project.

7. List the challenges with the working group or project.

8. List the lessons learned (i.e. What's working well? What could be improved or done differently? What would you recommend to other working groups based on your experience in the Cohort Consortium?)

9. Are there other projects that are building on this working group/project (spin-off projects)? If yes, please expand on your answer.

10. Are there ways the Steering Committee could be of help? If yes, please expand on your answer.
