We are required to pass on to our client details of adverse events/ product complaints pertaining to their products that are mentioned during the course of market research interviews. Although this is a market research interview and what you say will, of course, remain private to the extent provided by law, should you raise during the discussion an adverse event or product complaint in a specific patient, or group of patients, we will need to report this even if it has already been reported by you directly to the company or the regulatory authorities. In such a situation you will be asked whether or not you are willing to waive the privacy to the extent provided by law specifically in relation to that adverse event. Everything else you say during the course of the interview will continue to remain private to the extent provided by law.
