I'm working with a research group at the University of Wyoming to produce the National Park Service Centennial Survey. Your phone number was randomly chosen. I will need about 25 minutes of your time to ask some questions about the services the National Park Service offers. After I ask you these questions, I will ask you to tell me what you thought about the questions themselves. Would you be able to help me out with this?

If hesitation or "I don't think so"
