Responsible Investment Reporting Requirements

Introduction: Pursuant to the authorities of the International Emergency Economic Powers Act (IEEPA) (50 U.S.C. 1701 et seq.) and 31 C.F.R. part 537, on July 11, 2012, the Treasury Department’s Office of Foreign Assets Control (OFAC) issued General License No. 17 (“GL-17”). GL-17 authorizes new investment in Burma (as defined in 31 C.F.R. § 537.311) by U.S. persons (as defined in 31 C.F.R. § 537.321), subject to certain limitations and requirements set forth in that general license. Among those requirements is that any U.S. person engaging in new investment in Burma pursuant to GL-17 submit reports to the Department of State. This document sets forth those reporting requirements. There are two separate reporting requirements associated with new investment in Burma that must be submitted to the Department of State: (1) a requirement that any U.S. person undertaking new investment pursuant to an agreement, or pursuant to the exercise of rights under such an agreement, that is entered into with Myanmar Oil and Gas Enterprise (MOGE) notify the Department of State of such investment (“MOGE Investment Notification”); and (2) a requirement that any U.S. person whose aggregate investment in Burma exceeds \$500,000 provide information as set forth below (“Annual Reporting Requirement”). The second reporting requirement entails two versions: a version for the U.S. Government and a version that will be released publicly.

I. MOGE Investment Notification:

Any U.S. person that has undertaken a new investment pursuant to an agreement, or pursuant to the exercise of rights under such an agreement, that is entered into with the Myanmar Oil and Gas Enterprise (MOGE) must notify the Department of State in writing at MOGEnotification@state.gov within 60 days of such a new investment.

II. Annual Reporting Requirement

This reporting requirement addresses key U.S. foreign policy concerns in Burma. Reports are intended to provide information on issues of concern to the U.S. Government and will help the U.S. Government assess the impact and effects of new investment permitted under GL-17, including on the political transition in Burma. The reporting requirement shall not give rise to any liability beyond that which exists under U.S. law. The report is not required to be submitted in any particular format so long as it provides the requested information.

A U.S. person (hereinafter, the “submitter”) shall submit two versions of this report, as follows:

U.S. Government Report: The submitter shall submit one version for use by the U.S. Government

(the “U.S. Government Report”), containing all of the information requested below (with the exception of item 2, the “Acknowledgement,” which is necessary only for the Public Report).

The U.S. Government will not make public the information contained in the U.S. Government Report except to the extent authorized by law. The U.S. Government Report shall be submitted to BurmaUSGReport@state.gov.

Public Report: The submitter shall also submit a second version of the report, covering only the information requested in items numbered 1 through 8 below. This version of the report will be made publicly available (the “Public Report”). Public Reports shall be submitted to BurmaPublicReport@state.gov.

If the submitter determines in good faith that it considers any information covered by items 1 through 8 provided in the U.S. Government Report to be exempt from public disclosure under FOIA Exemption 4, it shall take the following steps:

- (1) It shall designate by appropriate markings such information in the U.S. Government Report, indicate which information so designated is not included in the Public Report, and provide a detailed explanation for withholding this information.
- (2) The submitter’s explanation must specifically identify the reasons why the information is either (a) a trade secret; or (b) commercial or financial information that is privileged or confidential, and must provide any arguments as to why the public release of the information would cause substantial harm to the competitive position of the submitter.
- (3) For each question (1 through 8) in the Public Report, where the submitter has not included information that the submitter included in the U.S. Government Report, the submitter shall indicate in the Public Report that additional information was not disclosed in the Public Report and indicate the basis for not including such information. For example, the submitter could state that additional information was not disclosed in the Public Report because such information is a trade secret exempt from disclosure under FOIA.
- (4) The submitter shall include in the Public Report an acknowledgement that the submitter understands that the Public Report will be made public, and that the submitter has redacted before submission any information it considers in good faith to be exempt under FOIA Exemption 4.

General guidance for completing U.S. Government and Public Reports:

If the submitter does not have information to report with respect to one or more of the reporting questions below, please note in response to the question(s) that there is no information to report and include a brief explanation. For example, a submitter could state that it is not providing a summary of its workers’ rights policies because it does not have formal policies in place.

The Appendix provides a list of references to international standards, principles, guidance, and other human rights tools that may be useful for establishing the types of policies and procedures referenced herein.

Due Date: Reports are due 180 days after the \$500,000 threshold is reached and thereafter annually on July 1. If beyond the 180 day window, report on July 1. Each submitter may report on either a fiscal year basis or a calendar year basis, but should identify the time period covered
