HSLs:09 Second Follow-up Brochure Text

What is HSLs:09?

The High School Longitudinal Study of 2009 (HSLs:09) is a national study of young adults' plans and activities beyond high school, including education and employment experiences. HSLs:09 is particularly interested in learning how young adults make choices regarding their education and careers, with a special focus in science, technology, engineering, and mathematics (STEM) education and career choices.

The second follow-up of HSLs:09 will help to answer important questions about young adults' pathways after high school, including but not limited to the following:

- What influences young adults to take STEM courses and pursue STEM careers?
- What factors influence whether young adults decide to enroll in college and complete a college degree?
- How do the characteristics of high schools and colleges influence decisions young adults make about their lives?
- How do individual characteristics and background experiences influence success in school and work?

Data collection for the second follow-up of HSLs:09 will begin in spring 2016. In addition to survey responses, we collect financial aid, student data, and related information from institutions and other sources such as admissions testing agencies, student loan databases, and other federal databases.

Why am I being asked to participate?

HSLs:09 follows a group of young adults who were enrolled in 9th grade in 2009 in order to understand the wide range of pathways related to education and employment as they move beyond high school.

Why is my participation important?

Participation in HSLs:09 is entirely voluntary; however, the participation of every young adult in the sample is important to ensure the completeness and accuracy of results. Your survey responses help educators, researchers, and policymakers at the local, state, and national levels understand the experiences of students after high school. Your experiences are unique, and if you choose not to participate in HSLs, no one else can be substituted for you.

Who is conducting the study?

HSLs:09 is conducted by the National Center for Education Statistics (NCES), in the U.S. Department of Education's Institute for Education Sciences, with data collection being carried out under contract by RTI International, a nonprofit research organization based in North Carolina. NCES is authorized to conduct the High School Longitudinal Study of 2009 (HSLs:09) second follow-up by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. § 9543).

How will my information be protected?

NCES is required to follow strict procedures to protect personal information in the collection, reporting, and publication of data. All individually identifiable information supplied by individuals or institutions may be used only for statistical purposes and may not be disclosed or used in identifiable form for any other purpose, except as required by law (ESRA 2002, 20 U.S.C. § 9573). The data will be used in analyses to understand young adults' participation in further education and work beyond high school.

We have implemented strict procedures to protect provided information:

- All electronic data are maintained in secure and protected data files, and all personally identifying information is kept in files separate from the descriptive information.
- No data released to the general public will identify individual respondents.
- All project staff with any access to study data are liable to severe fines and imprisonment for any disclosure of individual responses.
- These procedures comply with all applicable federal laws.

What happens to the results?

Results from the current study will be posted on the HSLs:09 website as soon as they are available. Results will be presented in summary form only; no individual results will be published. Publications from previous studies are available on the HSLs:09 website at <http://nces.ed.gov/surveys/hsls09/>.

How do I participate?

We are asking you to complete a 35-minute survey that will focus on the transition from high school to further education and the workforce. You may complete the HSLs:09 survey in one of two ways:

1. Online.

Go to the study website at <https://surveys.nces.ed.gov/hsls09/>. Simply enter your Study ID and password and select LOGIN.

2. By telephone.

If you prefer to complete the HSLs:09 survey by telephone, call **(877) 282-HSLs (877-282-4757)** to speak with a professional interviewer.

HSL:09 CATI Consent Text

READ VERBATIM:

Recently, we sent you material about the U.S. Department of Education's High School Longitudinal Study of 2009 (HSL:09). (This survey is being conducted to better understand the education and employment experiences of young adults beyond high school.) <<As a token of our appreciation, you will receive <<INC_AMOUNT>> once you complete the survey.>>

The survey takes about <35> minutes and may be monitored or recorded for quality assurance purposes. Your participation is voluntary and you may skip any question or stop the survey at any time. If you would like to learn more about your rights as a participant, let me know. [PAUSE] May we begin the survey now?

(At your request, we can remail the material to you. For questions about your rights as a study participant, please contact RTI's Office of Research Protection at 1-866-214-2043.)

If SM indicates they would like to learn more about their rights as a participant:

READ UNTIL SM INTERRUPTS:

In addition to your survey responses, we collect other information, such as financial aid data, student records, and related information from colleges and trade schools you have attended (if any) and sources such as student loan databases and high school equivalency and college admissions testing agencies. Your responses, combined with other data sources, may be used only for statistical purposes and may not be disclosed, or used, in personally identifiable form for any other purpose, unless otherwise required by law. (You are one of approximately <number> young adults who have taken part in this study.)

Your participation is voluntary and will not affect any financial aid or other benefits that you may receive. You may decline to answer any question or stop the survey at any time. The risk of participating in this study is small and relates to data security. However, there are strict security procedures in place. If you would like us to remail the material to you, please let me know. May we begin the survey now?

(For questions about your rights as a study participant, please contact RTI's Office of Research Protection at 1-866-214-2043.)

TI: IF THE SURVEY ISN'T STARTED AND THE ENTIRE CONSENT WASN'T READ, PRESS THE BREAK BUTTON BELOW.

Dear <name>:

Thank you for your ongoing participation in the High School Longitudinal Study of 2009 (HSL:09). As you may recall, HSL:09 is conducted by the National Center for Education Statistics (NCES) of the U.S. Department of Education (OMB control # 1850-0852). [Your/CaseName's] voluntary participation, and the participation of other young adults like [him/her/you], has helped to make HSL:09 a great success and has provided valuable data about young adults' experiences in and out of school.

This important research study follows the same set of over 23,000 young adults as they move from high school to the work force or further schooling to understand what factors influence their learning and development.

As we prepare for the next phase of HSL:09, which will begin in <date>, we are updating our contact information for study participants. Please update [your/CaseName's] contact information and current educational status. The success of this national longitudinal study depends on having the most up-to-date contact information for all of the young adults involved in HSL:09.

Please visit our website and use the study ID provided above to complete this information. If you prefer, you may fill out the enclosed address update form and send it back in the return envelope provided or call us at <tollfreephone>. The update should take approximately 5 minutes to complete. <If panel maintenance incentive: We will send you \$<inc-amt> as a token of appreciation for updating your contact information.>

As in prior rounds of HSL:09, we will ask [you/CaseName] to complete a questionnaire, and [your/his/her] ongoing participation in HSL:09 is critically important to the study's success. If you have any questions about HSL:09 or about updating [your/CaseName's] contact information, please call the HSL:09 help desk at RTI, toll-free, at <tollfreephone>.

NCES is authorized by Federal law (20 U.S.C., § 9543) to conduct HSL:09. Data are being collected for NCES by RTI and will **be used only for statistical purposes and may not be disclosed or used, in identifiable form for any other purpose except as required by law (ESRA 2002, 20 U.S.C., § 9573)**. We thank you in advance for your help and greatly appreciate your continued support of this important research!

Sincerely,
