Introduction – Key points to convey to the respondent:

- The study’s results will be discussed in a final report that will be available publicly. The main purpose of this study is to share your perspectives and experiences with policy-makers as they continue to refine policy and technical assistance on important issues related to Title I, Part D programs. This is not a compliance study; our purpose is solely to provide policymakers and the general public with insight regarding implementation practices of Title I, Part D programs so programs and student outcomes can continue to be improved.
- The purpose of this interview is to obtain information about your ESSA Title I, Part D, N or D program (hereafter “Part D”) regarding the implementation and progress of your State’s Part D program including how the program is implemented and how are the students’ needs met.
- Officials at the U.S. Department of Education (ED) know that your State is participating in this study and your State will be identified in our public reporting. In addition, staff from ED will see transcripts from our interview, but the transcripts we share will be reviewed and edited to ensure that no personally identifying information is included.

- Your participation in this interview is voluntary. You may discontinue your participation in this interview at any time, and through the course of the interview, if we touch on topics that you believe to be sensitive for any reason, please bring that to our attention so we will not include these comments either in public reporting or in discussions with ED.
- Your privacy is important to us and we will protect the confidentiality of the information you provide, to the extent provided by law. The reports prepared for this study will summarize interviews across respondents and will not associate responses with a specific individual. We will not provide information that identifies you to anyone outside the study team, except as required by law.
- In order for us to have an accurate account of your responses, we would like to record this interview. The recording will then be transcribed and all personally identifying information will be removed from the transcript. Do we have your permission to record this conversation?
