## **Assumptions:**

- <sup>a</sup> We have assumed that there are approximately 286 respondents, with no additional new sources becoming subject 1
- <sup>b</sup> This ICR uses the following labor rates for the private sector respondents: \$106.45 for technical, \$138.43 for mana<sub>1</sub>
- <sup>c</sup> This ICR uses the following labor rates for state/local/tribal and Federal government respondents :\$47.62 for techni
- $^{
  m d}$  We have assumed that each respondent will have to familiarize with regulatory requirements each year.
- <sup>e</sup> We have assumed that each respondents will take 40 hours twice per year to complete semiannual report.
- f We have assumed that 26 out of 286 respondents (9 percent) are estimated to use an in-situ treatment process. At ε
- <sup>g</sup> We have assumed that respondents will each take 0.5 hours 365 time per year to monitor ex-situ process vents para
- <sup>h</sup> We have assumed that each respondents will take 2 hours once per month to inspect surface impoundment. It is ass
- <sup>i</sup> We have assumed that each respondent will take 2 hours once per month to inspect separator covers. It is also assure
- <sup>j</sup> We have assumed that 10 facilities will be implementing a LDAR program.
- <sup>k</sup> We have assumed that each respondent will take 2 hours 52 times per year to enter information.
- <sup>1</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
