

Estimated Time per Response: The 50 large domestic manufacturers and the 100 largest importers may each introduce an average of 100 new children's sleepwear items annually. Testing and recordkeeping of each item is approximately 3 hours. The annual burden for the 50 large domestic manufacturers and the 100 largest importers is estimated at 45,000 hours for testing and recordkeeping (150 firms × 100 items × 3 hours). The remaining 1,000 manufacturers and 4,400 importers have on the average 10 new children's sleepwear items annually, for a testing and recordkeeping burden of 162,000 hours (5,400 firms × 10 items × 3 hours.)

Total Estimated Annual Burden: The total estimated potential annual burden imposed by the flammability standards on all manufacturers and importers of children's sleepwear is approximately 207,000 hours (45,000 hours + 162,000 hours).

Description of Collection: The Standard for the Flammability of Children's Sleepwear: Sizes 0 through 6X (16 CFR part 1615) and the Standard for the Flammability of Children's Sleepwear: Sizes 7 through 14 (16 CFR part 1616) address the fire hazard associated with small-flame ignition sources for children's sleepwear manufactured for sale in or imported into the United States. The standards also require manufacturers and importers of children's sleepwear to collect information resulting from product testing, and maintenance of the testing records. 16 CFR part 1615, subpart B; 16 CFR part 1616; subpart B.

proposed request for an extension of approval of a collection of information from manufacturers and importers of disposable and novelty cigarette lighters. This collection of information consists of testing and recordkeeping requirements in regulations implementing the Safety Standard for Cigarette Lighters (16 CFR part 1210), approved previously under OMB Control No. 3041-0116. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from the Office of Management and Budget ("OMB").

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for Cigarette Lighters.

OMB Number: 3041-0116.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of cigarette lighters.

Estimated Number of Respondents: In 2015, 42 firms submitted information to the CPSC on 307 lighter models. There were 4 new models and 303 lighters that were comparable to previously tested models ("comparison lighters").

Estimated Time per Response: Recordkeeping is composed of two separate components: recordkeeping for new models and recordkeeping for comparison lighters. The time burden for recordkeeping for new models is estimated at 20 hours per model. The total time for recordkeeping of new models is estimated to be 80 hours (20 hours × 4 models). For each new model, product testing for each firm would take approximately 90 hours per model, for a total of 360 hours (90 hours × 4 models).

Firms may also submit comparison lighters to demonstrate compliance with the standard. In 2015, 303 comparison lighters were reported to the CPSC. While firms bear no testing costs for comparison lighters, the burden hours for recordkeeping has been estimated at 3 hours per model. Thus, an estimated 909 hours (303 models × 3 hours) is estimated for recordkeeping for comparison lighters.

Reporting requirements for submitting forms to CPSC are estimated at one hour per model, for a total annual reporting burden on 307 hours (307 models × 1 hour).

Total Estimated Annual Burden: The total number of responses is approximately 307 per year (4 new models + 303 comparison lighters). The number of hours estimated for testing and recordkeeping is 1,349 hours per year, including new-product tests (360 hours if done in house), new product recordkeeping (4 new models × 20 hours = 80 hours), and recordkeeping for comparison lighters (303 comparison lighters × 3 hours = 909 hours). In addition, the CPSC estimates that approximately one hour per product will be required for manufacturers to submit forms to CPSC, or 307 total hours for reporting. Accordingly the total burden hours for recordkeeping and reporting are approximately 1656 hours (1349 + 307).

General Description of Collection: In 1993, the Commission issued the Safety Standard for Cigarette Lighters (16 CFR part 1210) under the Consumer Product Safety Act ("CPSA") (15 U.S.C. 2051 *et seq.*) to eliminate or reduce risks of death and burn injury from fires accidentally started by children playing with cigarette lighters. The standard requires certain test protocols, as well as recordkeeping and reporting requirements. 16 CFR part 1210, subpart B. In addition, section 14(a) of the CPSA (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program.

Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.
