SUPPLEMENTARY INFORMATION:

Title: Identifying Program Components and Practices that Influence Supplemental Nutrition Assistance Program (SNAP) Application Processing Timeliness Rates.

Form Number: Not Applicable.

OMB Number: Not Yet Assigned.

Expiration Date: Not Yet Determined.

Type of Request: New Collection.

Abstract: The Food and Nutrition Service (FNS) is responsible for administering the Supplemental Nutrition Assistance Program (SNAP) at the Federal level. An important aspect of SNAP administration is ensuring that eligible households have timely access to SNAP benefits. The Food and Nutrition Act of 2008, as amended (the Act), Sections 11(e)(3) and 11(e)(9)¹ requires that initial SNAP applications be processed and benefits provided within 30 days of the application date, or within 7 days for expedited

applications. FNS monitors compliance with statutory requirements through the SNAP Quality Control System (SNAP-QC). Results of these monitoring activities have indicated that a majority of States do not meet the acceptable performance criterion of a 95 percent application processing timeliness (APT) rate.

This study will examine policies, waivers, administrative practices, workflow, and processes associated with the APT rates of all 50 States and the District of Columbia. The primary purpose of this study is to determine best practices for facilitating high APT rates, and to identify State policy and procedural practices that hinder and facilitate high APT rates.

The study team will first review available State policy documents, procedure manuals, and administrative data. If these resources are not available from accessible sources, the study team will request these resources from SNAP offices/agencies. Following this review, the study team will collect quantitative and qualitative data via an online survey from the 50 States and the District of Columbia. The total annual burden for gathering documents, manuals, and administrative data and completing the survey is an annual total of 478.28 burden hours (468.49 for respondents and 9.8 hours for non-respondents) and 418 total annual responses (296 for respondents and 122 for non-respondents).

Affected Public: 357 State, Local and Tribal Government. Respondents from the 50 States and the District of Columbia. The specific respondent types will include: (a) 51 State SNAP agency representatives and (b) 306 managers, supervisors, or designated staff from local SNAP offices.

Estimated Number of Respondents:

The total estimated number of respondents is 357. This number represents a State SNAP agency representative from each State and the District of Columbia, and a manager, supervisor, or designated staff from approximately 4 to 10 local SNAP offices within each State and the District of Columbia.

Estimated Number of Responses per Respondent: 1.170868 responses per respondent time annually. All State and local respondents will be asked to gather SNAP documents, manuals, and/or administrative data and to participate in one survey. Survey respondents will be given the option of completing the survey online or through a telephone interview.

Estimated Total Annual Responses: 418 total annual responses.

Estimated Time per Response: 1.144 hours per response.

Estimated Total Annual Burden on Respondents: 478.29 hours.

See the table below for estimated total annual burden for each type of respondent:
