

WIC Breastfeeding Curricula and Training Project Designated Breastfeeding Expert Survey

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0524. The time required to complete this information collection is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

OMB No. 0584-0524
Exp. Date 9/30/2019

Thank you for completing the survey for the WIC Breastfeeding Curricula and Training project. This project is funded by the USDA Food and Nutrition Services (FNS) under a cooperative agreement with Every Mother, Inc. This survey is being conducted to collect information regarding the role of WIC Designated Breastfeeding Expert (DBE). State agencies and selected local agencies are being asked to complete this survey to provide the project team with an understanding of the qualifications, training and experience of individuals who are designated as DBE, as well as the role they play in providing breastfeeding support to WIC mothers. Your responses to the survey questions will be combined with responses from others to develop a summary that will be used to inform development of breastfeeding training resources.

The survey does not ask you to provide your name or the name of your WIC agency. No respondent names will be identified in the survey summary or any reports prepared with the survey responses.

Please complete the survey by [MM/DD/YY].

Most questions include a "button" or a "box" to select a response. Some questions require numbers or text responses. The survey will take about 15 minutes to complete.
