

Participant # _____

Debriefing Questions

- Do you have any sources of income that you did not report because the application did not ask about it, or because you could not find a place to report it?
- If you were at home filling this out, would you have done anything differently?
 - Would you have consulted additional documents or information sources prior to submitting the application?
 - Would you likely have completed the application in one sitting, or would you have taken a break and come back later? If so, why?
