Attachment A: Proposed Telemedicine Questions for the Services Annual Survey

Telemedicine Question:

Variation One: Ambulatory Health Care Services

Variation Two: Hospitals

Inpatient days and outpatient visits		
Inpatient Days - The unit of measure in	which lodging was provided and services rendered to inp	atients.
day, regardless of the number of hours the observation to inpatient status, the patient	who is discharged or dies on the same day is counted as se patient occupies a hospital bed. For patients switched f t day count should begin on the day the patient was offic sys unless they are related to neonatal intermediate or int	rom ially admitte
Include:	Exolude:	
 Inpatient acute and sub-acute days 	Nursery days	
Swing bed days	Newborn days	
Distinct part unit days		
 Skilled nursing facilities days 		
Long term care days		
Neonatal days		
other services. Each appearance of an out	who is not lodged in the hospital while receiving medical, spatient in each unit constitutes one visit regardless of the shat the patient receives. Patients switched from observati sits and subsequently as inpatient days.	number of
Include:		
Observation services		
 Emergency department visits 		
Outpatient surgeries
