

**2020 Census Attitudes Survey**  
**(Internal name: 2020 Census Tracking Survey)**

Online probing for pre-testing  
Introduction for online data collection

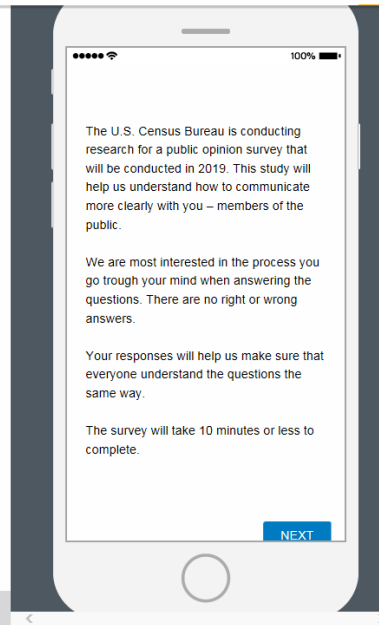

The U.S. Census Bureau is conducting research for a public opinion survey that will be conducted in 2019. This study will help us understand how to communicate more clearly with you – members of the public.

We are most interested in the process you go through your mind when answering the questions. There are no right or wrong answers.

Your responses will help us make sure that everyone understand the questions the same way.

The survey will take 10 minutes or less to complete.
